

BRCGS Leadership Essentials Programme

Developing the Food and Product Safety Leaders of Tomorrow

Programme Ethos

Transforming the needs of the Food Safety Industry into the **requirements of future Food and Product Safety Professionals**

NEEDS

- Next-generation leaders with a holistic approach
- An understanding of Leadership and Management in the context of Food and Product Safety
- Continuing Professional Development and creating cultures of learning within organisations

REQUIREMENTS

- Leadership, Management and Professional skills
- Communicating complex issues with simplicity
- Higher cognitive skills such as Creativity, Critical thinking, Teamwork, Problem-solving and Decision-making

World class leadership content tailored to the specific needs of industry professionals, featuring practical examples that are relevant to the challenges you face.

A strong emphasis on raising self-awareness and interpersonal skills and how to demonstrate your unique **leadership** brand.

Understanding your **strengths**, impact and what it takes to be at your best.

How to transcend your technical skills with clear, impactful communication and to build great **relationships** with all stakeholders and team members

Shared, cross-organisational **learning** and how to create a pinpoint focus on performance improvement and continual learning.

Sessions will take place at 2pm-5pm UK Time and 9am-12pm Eastern Time (US)
