

**Name:**

Sibel ÖNGÜL

**Country:**

Turkey

**Company:**

Sunvision FIBCs Worldwide

**Job Title:**

Quality Assurance Specialist

**Tell us a bit about yourself...**

I am a food engineer and currently working as a Quality Assurance Specialist at Sunvision FIBCs Worldwide that produces Flexible Intermediate Bulk Containers based on Polypropylene.. I have a Bachelor degree in Engineering which mainly focuses on food.

**Why did you join the BRCGS Professional Programme?**

I participated in this programme in order to increase my professional qualifications, to understand the requirements of the global standard better and to be a part of such a prestigious international platform.

**What value do you personally feel the BRCGS Professional certification brings to you?**

Thanks to this certification program, I have had the opportunity to broaden my horizon by reinforcing my knowledge of the requirements for product safety, legality and quality.

**How has the training helped improve operations at your site/company?**

Being a BRCGS professional has allowed me to understand product safety, legality and quality requirements in depth, to look at these important facts from a broader and more inclusive perspective and to apply them more effectively and accurately in the company I work for.

**What did you most enjoy about the training?**

What I enjoyed most during the training was the interactive tasks and the specific examples given by the participants operating in different sectors. Besides, the approved trainers' approaches to the participants were quite constructive and kind.

**What are you most looking forward to within the Professional community?**

I am looking forward to experiencing a wide range of opportunities such as attending useful training, webinars related to product safety and meeting other Professionals. In addition, I am really eager to keep myself up-to-date in terms of global standard and all its amendments.

**How do you plan to keep your skills up to date?**

I plan to participate in useful training and webinars that mainly interest me. Thus, in addition to keeping my competencies up to date, I will be able to improve myself by attending training in different fields.

**What are your career ambitions/aims?**

To be a successful and distinctive BRCGS Professional by continuously following the new improvements and requirements within GFSI approved standards worldwide.
