

**Name:**

Faig Mammadov

Country:

Azerbaijan

About you...

I graduated from the faculty of process control engineer in Azerbaijan state oil academy . I started working in the food industry in 2010 as a process control. I completed my 13 years in the food industry. I was currently working at ATS FOOD as a quality control chief. I am married and have two children. I like playing tennis.

Why did you join the BRCGS Professional Programme?

This standard is an international standard and it is a privilege to know the articles of this standard. I have added new information to my knowledge. It will be beneficial for the food safety system in our company, which is an export company.

What value do you personally feel the BRCGS Professional certification brings to you?

This certificate will create my recognition in the industry and new job offers.

How has the training helped improve operations at your site/company?

The training will help to establish product reliability at a higher level.

What did you most enjoy about the training?

I enjoyed the examples given in the training, which are up-to-date and define the standard items.

What are you most looking forward to within the Professional community?

I am looking forward to mutual communication with other professionals and the opportunity to gain new information from them.

How do you plan to keep your skills up to date?

I will continue to participate in BRCGS trainings and follow the BRCGS page.

What are your career ambitions/aims?

By learning the professional program, I aim to establish my own consultancy company in the future.
