Angie Echols

Corporate QA Programs Manager

Bay State Milling

Angie is the Corporate QA Programs Manager at Bay State Milling Company. After working in several areas of the business during her 20 years at the company, including by-product sales and grain accounting, she currently works in corporate quality.

Angie leads the company's compliance with the Food Safety Modernization Act's (FSMA) Supply Chain programs. Additionally, she manages the company's product labelling, nutritionals, and Non-GMO Project Verification.

Angie received her Master of Science degree in Quality Assurance specializing in Manufacturing from California State University, Dominguez Hills in 2018; and her undergraduate degree from Metropolitan State University, majoring in Business Administration with a minor in Psychology in 2009.
