## Mike Wilson

### Global Head – Ethical Trade and Responsible Sourcing

#### BRCGS

Mike joined BRCGS in June 2017 and has overall responsibility for the Global Standard for Ethical Trade and Responsible Sourcing and supporting products.

Mike has spent the best part of 20 years designing, developing and delivering a range of assurance solutions for global brands, manufacturers and retailers along their supply chains from primary production through to point of sale.

Having worked at all points within the retail agri-food value chain, he has gained a good understanding of the challenges that exist in the production and delivery of good quality products that meet the ever-increasing demands of discerning customers around the world, and also the risks that exist within the global supply chain.
