About you...

Firstly thanks for reading my success story. I am a technical consultant specializing in the field of food safety quality and occupational health and safety management systems. I graduated from The Faculty of Science and Technology of Sultan Moulay El Mehdi University Beni Mellal in Morocco where I obtained my master's degree in science and technology in the specialty of quality management in the food industry. I started my career in the fishing industry and then moved on to one of the largest fruit and vegetable freezing industries strawberry raspberry apricot and fig freezing .

I am now working for the last four years as a consultant trainer and auditor in the area of support training and auditing in the agricultural and agri food sector and I am a second party auditor for Grand standards A P A warehouse and transportation . I offer consulting auditing and training services for the primary production and food processing industries and food packaging.

In general I'm passionate about learning and training that's why I obtained my I A in I lead auditor in I v P I approved by A validation of P courses provided by the Institute for food safety at Cornell University and all the mandatory courses to obtain the badge.

Why did you join the BRCGS Professional Programme?

How has the training helped improve operations at your site/company?

Building a food safety culture is a challenge that every industry is considering. Now as a Professional I have the necessary competence to contribute to the establishment and the maintaining of a solid culture within my partners sites.

What did you most enjoy about the training?

The shared experiences of all delegates and the teaching methods used by our expert trainer who is very professional as well as the training materials are very effective.
