

**Name:**

Deepika Om Raj Singh

**Country:**

Dubai

**Company:**

Gulf Processing Industries LLC

**Job Title:**

Quality Executive

**About you...**

Thanks for reading my success story. My name is Deepika. I have completed my masters in Microbial and food technology from Punjabi University (Patiala) India. My total experience is 4+ years in the FMCG Industry. I started my career with organic products and then in bakery (Mrs. Bector) in India. Currently I am working as Quality Executive for Gulf Processing Industries LLC (Dubai) in the manufacturing of culinary products.

**Why did you join the BRCGS Professional Programme?**

I joined the BRCGS Professional program as it offers the complete knowledge required to be implemented by any FMCG company.

**What value do you personally feel the BRCGS Professional certification brings to you?**

I got an opportunity to connect with the larger community of Professionals. It also gave me the required knowledge, understanding and confidence to perform internal audits, risk assessment, root cause analysis and HACCP. It improved my overall knowledge of Product Safety Management.

**How has the training helped improve operations at your site/company?**

I am working to improve my abilities and knowledge for further achievements and working on our systems to improve the product safety, compliance and local regulations.

**What did you most enjoy about the training?**

The best part of our training was the relevant examples. The right examples to explain the scenario helped me to get the clarity on the concepts. Since the complete training was interactive, we learned from the trainer and from other attendees also.

**What are you most looking forward to within the Professional community?**

Communication, learning and sharing experience with different professionals coming from different skill sets and from different locations.

**How do you plan to keep your skills up to date?**

The PPP system, which includes activities such as enrolling on more training, mentoring, attending conferences and events, E-Learning and webinars. I will be part of it to keep my knowledge updated and refreshed.

**What are your career ambitions/aims?**

My career ambition is to implement the BRCGS Professional programme in other areas of our company and to be recognised as an industry leader.
