\*Join the FSNS team for a tour of the beautiful Food Safety Net Services (part of The Certified Group) San Antonio Laboratory – one of their 30 ISO accredited network laboratories across North America. The San Antonio facility showcases over 20,000 square feet of dedicated laboratory and clerical space to accommodate all of your food safety needs, including microbiological & chemical testing, research & development, certification & audit, education & training, consulting needs and more. They look forward to meeting you and showing-off their many talents!
