

Company Name:

SunPork Group

Can you please introduce your company?

From gold standard genetics, feed production and farming, right through to processing, distribution and sales – we are one of the only pork producers in the country that has the pleasure to govern every single element that contributes to the finest tasting pork in Australia. Today the SunPork Group is the largest pig farming integrator in Australia and New Zealand with over 55,000 sows under management, which will see us produce more than 1.15 million pigs and over 80 million kgs of the highest quality pork annually. BRCGS certification has helped strengthen the Food Safety Culture mindset within the business.

Why did you choose the BRCGS Standard?

A Strong Food Safety Culture delivers outstanding audit results and provides our customers with the satisfaction that the product meets or exceeds their expectations.

What are the benefits being BRCGS certificated?

The BRCGS standard is recognised by GFSI and is a benchmark for best practices within our industry.
