

**Company Name:**

Manitoba Harvest

Can you please introduce your company?

Manitoba Harvest's mission to transform consumer health starts simply and sustainably: with hemp. Since 1998, we've grown our portfolio of hemp products with a dedication to quality, sustainability, and consumer wellness that has positioned the company as the global leader in hemp foods.

Why did you choose the BRCGS Standard?

We chose the BRCGS Standard for Food Safety as it is a globally recognized standard that facilitates business with knowledgeable customers and suppliers. The Standard is well organized for use in food manufacturing, and forms a common language of quality that is shared throughout our management systems.

What are the benefits being BRCGS certified?

BRCGS certification has provided a sense of pride among our team members. Certification is a target shared by all and has enabled a strong culture of quality at Manitoba Harvest where we are proudly "audit ready every day".
