

**Name:**

Bilgin Kandemir

Country:

Turkey

About you...

I am Bilgin I was born on May 19, 1988. I studied at the University of Samsun Ondokuz Mayıs University, Faculty of Engineering. I received training in food science and technology majors.

I work in the quality assurance management department of a private retail discount chain. I monitor the company's product safety audits in the supply chain, observe how well it complies with the company's product safety policies and standards, and manage the quality and safety of my own branded products in my Denizli organization.

What value do you personally feel the BRCGS Professional certification brings to you?

After I became a BRCGS professional, I got a job offer as a quality and product safety manager. The certification has added value to my professional career.

How has the training helped improve operations at your site/company?

By better understanding the BRCGS certification audit requirements, I am able to integrate a high level of product safety management into the company. I have also used the food fraud analysis, hazard assessment and quality product safety-based nonconformities with root cause analysis methods in my company and had the opportunity to change and develop our suppliers,

What did you most enjoy about the training?

I was impressed by the interactive and high level examples given during the training process.

Our trainer and BRCGS Turkey representative, Evren Efe-Kabagoz, was highly knowledgeable, had good audit experience and sectoral current knowledge.

How do you plan to keep your skills up to date?

I aim to keep up to date by following BRCGS trainings and seminar programs.

What are your career ambitions/aims?

My career goal is to manage a professional team and process by working as the director of quality and product safety in global companies that provide industrial production.
