

Company Name:

Germinal Group

Can you please introduce your company?

Germinal Group has specialized for 40 years in the production of organic, healthy and functional products, gluten-free, vegan and baby food, made with raw materials from controlled supply chains. Germinal Bio's mission is to promote the organic food production system in order to guarantee human health and environmental sustainability.

Why did you choose the BRCGS Standard?

During the last BRCGS audit we reached the maximum level of evaluation (AA +): an excellent achievement that made our team really proud of.

What are the benefits being BRCGS certificated?

The BRCGS certification has always been a useful tool for us to monitor our continuous improvement in terms of quality and food safety.
