BRCGS Directory PRO

A new dawn.

Revolutionising supplier management with a smarter, more efficient way to track certification.

Directory Pro revolutionises supplier management with a smarter, more efficient way to track BRCGS certification. Powered by data only from authentic sources, it gives you complete control with instant access to the certificate data you need, exactly when you need it. Directory Pro transforms supply chain assurance to free up your valuable time, giving you the opportunity to focus on other things.

What is Directory Pro?

Directory Pro is a new platform offering instant access to verified BRCGS certificate data.

It is the first global supplier management tool offering access to authentic certificates providing transparency around BRCGS certification to support product safety across the industry.

- Instant self-service access to authentic BRCGS certificate data, with downloadable PDFs, eliminates the need to request certificates from your suppliers.
- 'Favourite' functionality allows you to build a personalised list containing just your suppliers.
- Live alerts keep you informed of status changes in real-time.
- Data can be easily exported from screen to PDF and XLS format.

Why use Directory Pro?

Directory Pro streamlines your supplier management processes, delivering a range of valuable benefits.

- **Save significant time and resource**
  Collecting certificates from suppliers is time-consuming and often relies on manual tracking, in some cases taking an estimated 100+ hours annually. With Directory Pro, you gain instant access to authentic downloadable certificates, eliminating the need for follow-ups and reducing delays. It streamlines the process by removing manual intervention.

- **Protect your business reputation from the risk of fraudulent certificates**
  Fraudulent certificates pose a considerable challenge in our industry. Directory Pro provides a reliable solution that significantly reduces this risk for your business. Featuring only data submitted by the BRCGS-approved certification bodies that conduct the audits, you can have complete confidence that you are working with authentic and verified data.

- **Strengthen your due diligence process and decision-making**
  Data transparency is essential in today's fast-paced global industry. Directory Pro instantly reflects updates made by certification bodies, so you know you are seeing the most accurate and up to date information about your BRCGS suppliers. With live alerts notifying you of any changes to a supplier's certification status, you can strengthen your due diligence process and make confident, informed decisions.

- **Full 360° view of your BRCGS supplier base**
  The size, complexity, and global reach of a supplier network often make it nearly impossible to gain complete visibility. Directory Pro makes it effortless to gain full insight, no matter the size or complexity of your supply network. It simplifies the process by consolidating BRCGS certificate data from across your entire supply network into one place. Featuring all suppliers regardless of current status and with full audit report access where shared, it gives you a full 360° view of your BRCGS suppliers.

API service

For seamless integration of BRCGS certification data into your internal systems or platform, the Directory Pro API service provides access to verified certification information with live status updates.

API integration could enhance the efficiency and accuracy of your internal processes by:

- Automating supplier and compliance checks
- Feeding certification data directly into internal dashboards and tools
- Reducing manual processes and minimising the risk of errors

Streamline your data management and simplify compliance.

Protecting product integrity throughout the industry

Directory Pro is the world's first supplier management tool designed to bring unparalleled transparency to BRCGS certification.

At BRCGS, our mission is to uphold product integrity and protect consumers through comprehensive global supply chain assurance. Directory Pro reflects this commitment by ensuring the integrity of BRCGS certification for brands, specifiers, and retailers alike.

Directory Pro offers simplicity, trust and speed in certificate management. As supply chain complexities continue to grow, it protects product integrity by:

- Providing visibility of BRCGS certification across global supply networks.
- Reducing the risk of fraudulent certificates to businesses and the consumer.
- Strengthening due diligence processes across the industry.

With Directory Pro, managing supplier certification has never been quicker, easier or clearer.
