2026

WELCOME TO DNV'S DIGITAL TRAINING CATALOGUE

Our training courses offer a truly transformative experience, equipping you to meet both current and future challenges through a balanced mix of classroom learning and hands-on practical exercises. Each course is enriched by benchmarking insights drawn from over **70,000** DNV customers worldwide.

Our programmes are designed for professionals who oversee and improve **internal company processes**, as well as those looking to develop the skills needed to operate as independent third-party auditors.

DNV certifies specialist expertise by verifying compliance with **international standards** and **regulatory requirements**.

You can choose from a wide range of specialist courses covering topics such as Quality, Environment, and Occupational Health & Safety Management Systems, sustainability, ESG, risk management, data privacy, corporate governance, and our recently launched cybersecurity portfolio.

We also offer courses focused on developing essential managerial and soft skill, including leadership and competencies relevant to auditing and professional certification.

Our approach is practical and grounded in technical expertise, delivered by experienced trainers with deep sector knowledge. With a strong presence across key industries in the UK and internationally, DNV is a trusted partner in professional development.

PATHS

1. WHY TRAINING MATTERS

Training is the cornerstone of any sound management system. From foundation and awareness courses, all the way through to internal or lead auditor courses, structured training empowers staff to contribute meaningfully and ensure long-term success.

- ✓ Builds internal competence to meet standard requirements
- ✓ Helps clarify roles, responsibilities, and performance
- ✓ Reduces the risk of non-conformities and audit findings
- ✓ Fosters a quality culture and process ownership
- ✓ Supports long-term certification success
- ✓ Drives continual improvement and performance

2. TRAINING AT DNV

OUR POINTS OF STRENGTH

TRANSFORMATIVE TRAINING

Our courses combine theory and practice to prepare professionals and certify regulatory compliance.

AUDITORS AND PROCESSES

Training for those who supervise and improve internal processes or who wish to become certified as auditors.

BROAD TOPIC COVERAGE

Courses on quality, environment, occupational health & safety, sustainability, ESG, risk, privacy, governance, cybersecurity, and soft skills such as leadership.

GLOBAL REACH AND PARTNERS

Practical approach, certified tutors, and presence in both national and international markets.

3. TYPES

We offer a comprehensive suite of training solutions designed to support your organisation in building competence, driving improvement, and achieving certification. Delivered by a team of experienced professionals and supported by insights garnered from global audit data through our unique benchmarking tool, Lumina™.

PUBLIC TRAINING

Ideal for individuals or small teams, our public courses cover a wide range of topics. Participants benefit from interactive learning, while gaining practical skills and fresh perspectives. Scheduled dates are published in advance, and sessions are delivered remotely for added flexibility.

PRIVATE TRAINING

Tailored for organisations seeking a more focused experience, private training allows you to book courses exclusively for your team, with delivery arranged to your preferred dates. Able to be delivered either virtually or face-to-face, by adapting our proven course content to your operational environment, this ensures that the format aligns with your company's context.

eLEARNING

Designed for professionals seeking flexibility and depth, our interactive eLearning modules offer a self-paced approach to mastering management systems and staying aligned with evolving industry standards.

4. CATEGORIES

What sectors do you work in? Choose your area of interest. Our extensive training offer ranges from Risk Management to sustainability, from ESG to privacy, from HSE to governance, from soft skills to hard skills and much more.
