

**Company Name:**

Dartmouth Foods

Can you please introduce your company?

Dartmouth Foods is a UK processor of premium, slow-cooked roast-on-the-bone shredded, pulled and diced meats and a range of refined fats.

Our range of products include slow roasted shredded duck and duck portions, rotisserie style, slow-cooked, traditional roast shredded and diced chicken, slow cooked beef and pork.

We are specialists in providing innovative cooked solutions through our unique steam, roast and bake process, which delivers a succulent, full-flavoured product with roasted notes.

We are passionate about the quality of our products, food safety and supply chain excellence and we pride ourselves in being a responsible and inclusive business. Employee satisfaction is paramount, as it is our people who make the difference.

Why did you choose the BRCGS Standard?

BRCGS is a worldwide recognised industry standard that supports our drive towards improving our food safety culture and business safety.

It allows us to have confidence in the products we produce, ensuring we make consistently high-quality and safe products.

What are the benefits being BRCGS certificated?

BRCGS certification is accepted by the majority of businesses and UK retailers. It provides our customers with the confidence in product safety, quality and supply chain management. It helps us to focus on food safety culture and encourages everyone within the organisation to contribute to food safety. Every individual has a responsibility for its implementation and effectiveness.

We are focussed on improving standards, continuous improvements and proud of our achievements in this important area of the business.
