Shadow Boards & Equipment Storage

SEGRISTORE

NEW! Ask about our closed loop recycling for shadow boards.

All shadow boards feature state-of-the-art UV-cured coating, benefits include:

Increased durability.

No laminate = no peeling.

Suited to all environments, including wet, dry and low-temperature.

Learn more about our shadow boards:
www.klipspringer.com/shadow-boards

Klipspringer's Shadow Board Configurator

Design your shadow boards in minutes using our AI-powered configurator, to try for yourself visit:

www.klipspringer.com/shadow-board-configurator

Stainless Steel Mirrors

Drive standards of hygiene and safety with our new range of durable, shatterproof factory mirrors. Suited to changing rooms, washrooms, and PPE stations.

Resistant to corrosion and damage!

Made from polished stainless steel.

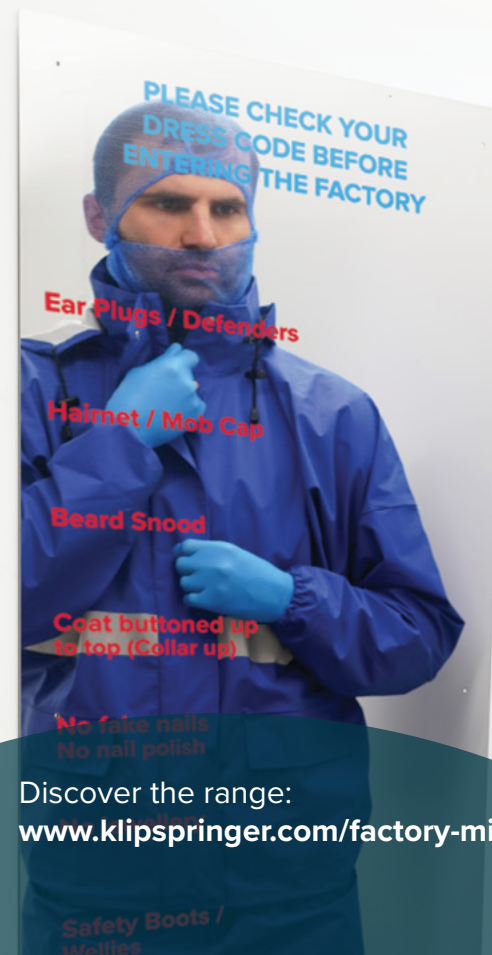

Customise with safety messages and branding.

Featuring pre-drilled fixing holes.

Smooth edges and rounded corners.

Discover the range:
www.klipspringer.com/factory-mirrors

Segregation Screens

SEGRISCREEN MK 3

Reduce downtime and prevent cross-contamination with the next generation of mobile partitioning.

NEW
stronger
design!

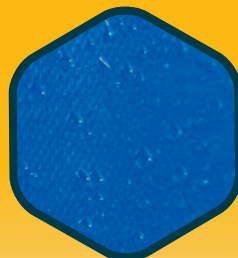

Modular system

Add or remove screens as needed.

Bespoke print

Customise with branding, safety instructions or messages.

Hygienic design

Waterproof PVC material on a food-safe, stainless-steel frame.

Traceable

Individual serial numbers for traceability.

"There isn't anything I've come across which does as comprehensive job or ticks as many boxes as SegriScreen does!"

Site Hygiene Manager, Bakkavor

AVAILABLE
in 5 colours

Thanks to its new and improved design, the SegriScreen MK 3 offers:

- ✓ **Increased durability:** stronger than ever and less susceptible to damage.
- ✓ **Faster assembly time:** one person can set up in under 10 minutes.
- ✓ **User-friendly popper system:** 40% fewer bolts and washers for reduced foreign body risk.

Find out more:
www.klipspringer.com/segriscreens

SEGRICURTAIN

NEW! The SegriCurtain can now be hung using an innovative rail method.

- ✓ **Durable stainless steel:** suited to harsh washdown environments.
- ✓ **Modular system:** install independently.
- ✓ **Hygienic design:** easy to clean.
- ✓ **Enhanced protection:** increased curtain height and width.

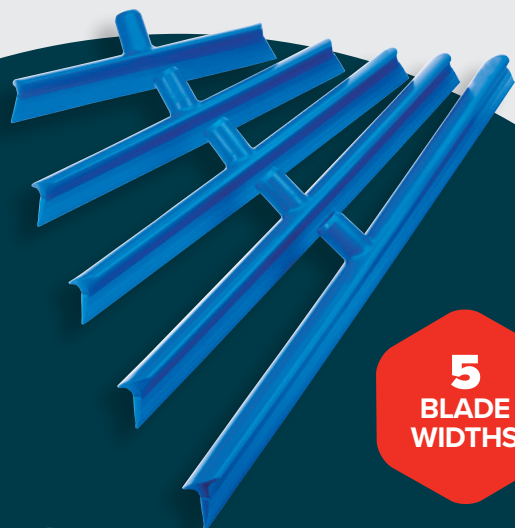

Single Blade Squeegee

The ultimate combination of durability, performance, and hygienic design.

- ✓ Flexible, food-safe rubber blade.
- ✓ Perfect angle to reach corners and edges.
- ✓ Hygienic design with no cracks or crevices.
- ✓ Scraper nose removes solid residues.

ATFN520-SMP

-ebro- Range

Klipspringer is now the official UK distributor of EBRO equipment, offering local stock availability and fast turnaround times.

Explore the full EBRO range at:
www.klipspringer.com/ebro

This range includes a wide selection of equipment, including, but not limited to:

Klipspringer's in-house Technical Team will provide ongoing support for the service and calibration of your equipment.

In-Process Data Loggers

LEBI-11 and LEBI-12 Data Loggers

- ✓ IP68 protection.
- ✓ Different temperature ranges and probe lengths available.

Food Industry Thermometers

ATLC700 Folding Probe Thermometer

- ✓ Tapered penetration probe.
- ✓ IP65 water resistance.
- ✓ Large, easy to read display.

ATFX410-1 Waterproof Thermometer

- ✓ Robust and impact resistant.
- ✓ IP67 waterproof rating.
- ✓ Multiple probe options.

Food Oil Monitor

FOM330

- ✓ Numerical measurements and colour-change beacon.
- ✓ Results in 30-60 seconds.

Humidity Meters

HTFH620 Humidity Meter

- ✓ Robust and durable design.
- ✓ IP67 waterproof rating (housing only).
- ✓ External sensor.

LazaPort8 Thermometer Verifier

The industry's best-practice method for thermometer verification.

With help from this system, you can:

Improve health and safety

Save time and cost

Increase traceability

Enhance food safety compliance

"I'm surprised whenever I hear of sites still using the traditional ice and boiling water method; to me that is becoming old-fashioned and is also a massive health and safety risk. I would recommend the LazaPort to any site!"

QA Shift Manager, 2 Sisters Food Group

Watch the video at:
www.klipspringer.com/lazaport8

Why choose the LazaPort8?

Simultaneously verify up to 8 thermometers

Suited for infrared & probe thermometers

Safely verify at 0°C - 100°C or -18°C - 100°C

UKAS Certified, accurate to +/- 0.27°C

Zero manual preparation or clear up required

Discover more about the LazaPort8:
www.klipspringer.com/lazaport8

Small and portable ✓

Introducing TRAKKD.

The NEW paperless approach

Your new Digital HACCP Management System from Klipspringer

TRAKKD is a Cloud-Based Quality Management System that helps sites to maintain food safety compliance, all while:

Increasing visibility

Recording accurate data

Improving sustainability

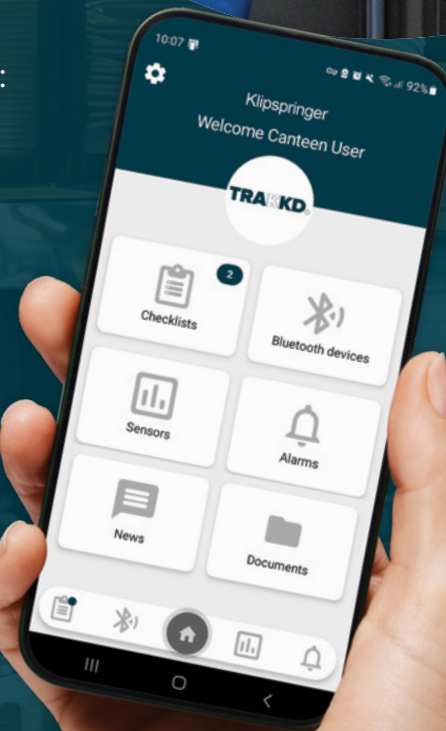

Saving time

Reducing costs

For more information about TRAKKD, visit: www.klipspringer.com/trakkd

It is easy to connect Bluetooth and wireless devices to the TRAKKD system, with readings going straight into your digital checklists.

- ✓ **Digital Checklists:** save time and eliminate operator error.
- ✓ **Real-time Monitoring:** continuously track metrics including product and environmental temperature, door contact and humidity.
- ✓ **Dynamic Notifications:** receive automatic alerts if key parameters are breached.

Single-Use USB Temperature Data Logger

The Klipspringer Single-Use USB Data Logger is suited to temperature monitoring in storage and cold chain logistics.

- ✓ 110 days of logging with 10-minute logging intervals.
- ✓ Data Rescue Memory ensures data is recorded even if the logger isn't initiated.
- ✓ Instantly access data via phone or USB connection.

QUANTITY DISCOUNTS AVAILABLE

Waterproof Protection

Temperature -30°C to +70°C

The Software

- ✓ Change logging intervals
- ✓ Assign a Trip ID
- ✓ Add a description
- ✓ Access your data logger history
- ✓ Change when and how the logger starts recording
- ✓ Implement alarm thresholds
- ✓ Share data with key contacts

WatchmanOne

The industry's favourite real-time monitoring system for visibility, stock protection, and audit compliance.

The system monitors a range of parameters including temperature, humidity, door contact, air pressure, concentration (ppm), energy, water temperature and oven temperature.

Why Choose WatchmanOne?

Automated reporting for easy analysis

Custom alerts for key parameters

Data is fully secured

Easy installation and expansion

No ongoing licensing fees

2025 Updates

- ✓ New and improved waterproof housing.
- ✓ Internal sensor probes for increased protection.
- ✓ Enhanced Data Portal – supports multi-site visibility and audit compliance.
- ✓ Improved connectivity between base station and sensors (range: up to 1,000 metres).

www.klipspringer.com/testing-accessories

Rapid Allergen Tests

Setting a new standard in allergen detection, our Rapid Allergen Test Kits are highly accurate and easy to use.

View the full range:
www.klipspringer.com/allergen-swabs

Rapid Allergen Test Kits PRO

- ✓ Accurate and reliable results even when testing highly processed food.
- ✓ Pre-prepared Extraction Solution included.
- ✓ No additional Buffer Solutions required.

Find our
**Allergen
Spill Kits** on
page 11

Rapid Allergen Test Kits EASY

- ✓ Simple two-part swab and shake process.
- ✓ Accurate detection rate of 0.5ppm.
- ✓ 10-minute assay time.
- ✓ No refrigerator required for storage.

Book A Site Visit

Our Technical Team travels the length and breadth of the UK and Ireland, supporting food and beverage manufacturers with hands-on, site-specific solutions.

Why book a Klipspringer Site Visit?

- ✓ Tailored advice based on your specific production environment.
- ✓ Identify opportunities to reduce risk, save time, and improve compliance.
- ✓ Product demos, technical support, and problem-solving in person.

What we cover:

Equipment assessments and hygiene zoning.

Storage optimisation and shadow board mapping.

Validation and compliance best practice.

Book your visit today: contact@klipspringer.com

Calibration and Service

Klipspringer's UKAS-accredited laboratory provides hassle-free equipment service, repair and calibration within 2-3 days. Our in-house team specialises in temperature, humidity and reference weight calibrations.

Learn more about the services we provide:
www.klipspringer.com/calibration-and-service

"What a proactive team you have. You contacted me about the annual calibration just before I was going to phone you. You also helped me with some issues I was having with equipment here at site. Fast, friendly and it's fair to say, the experts in this field."

Technical Compliance Manager,
Samworth Brothers Group

Thanks to our Online Equipment and Certificate Portal, you can:

Download calibration certificates

Register and manage your technical equipment

View calibration due dates

Return your equipment for calibration, service, or repair
