# COMPANY PROFILE

SHIANKU was established by a team of experts well versed in international food safety standards in 2012, providing facilities and consumables which meet food safety standard for food factories, pharmaceutical factories, catering, and other food retail companies. Specializing in food contact surface safety.

SHIANKU provides Color Coding and Industry Solutions, offering all kinds of food grade cleaning tools, protective products, pest control device, stainless steel products, and so on. And we can offer test reports for all the food grade products.

There are several RGCGS, IFS, AIB, HACCP auditors in company's startup team, which from internationally recognized certification bodies. Through extensive and in-depth contact with food production enterprises and catering enterprises, familiar with customer needs, and then design products that comply with food safety standards.

After more than a decade of development, SHIANKU has already been the reliable one-stop supplier of food industry.

The effective color coding system is very important to pass BRCGS, IFS, AIB, ASQ, and other certifications successfully and customer's two-party audit.

COLOR CODING SYSTEM TO AVOID CROSS CONTAMINATION

#### COLOR CODING SIMPLIFIES MANAGEMENT

Color coding gives a basic idea to employees, all tools should be in the right place and used in the right place.

Color coding helps employees quickly and accurately determining to use the required tools.

It also can help dispose waste safely and efficiently, reducing waste. Reduce tools loose and search time.

### With color coding, cross contamination can be stopped in the following areas:

Food Contact Surface & Non Food Contact Surface Raw Material & Heat-treated Products Allergens & Non-allergents Washroom & Workshop

#### SPECIALIZING IN FOOD CONTACT SURFACE SAFETY

shoes, etc.

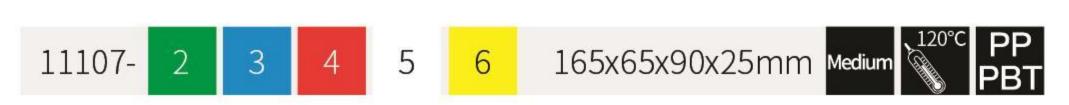

#### Folding Handle Brush

#### Long Handle Brush (Thin Head)

#### Hand brush with handle (Iron Shape Brush)

Multi purpose hand brush, used for cleaning table, equipment, etc., handle for easy downward force

#### Round Hand Brush

Cleaning equipment, countertops, containers, etc.

#### Long Handle Brush (Square Head)

Clean equipment, countertops, containers, etc.

Long Handle Brush

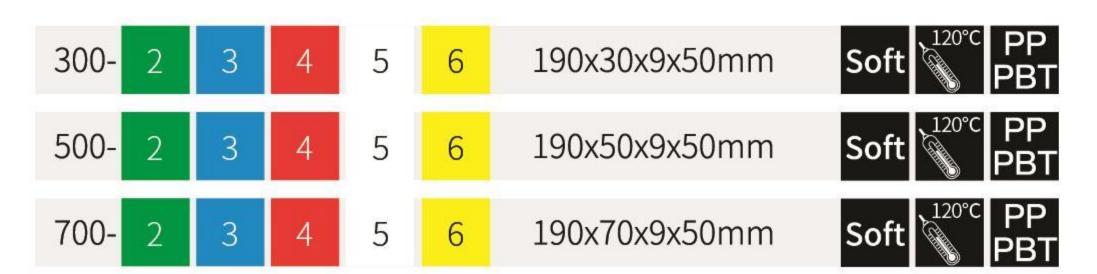

Hard PP PBT

#### Small Hand Brush

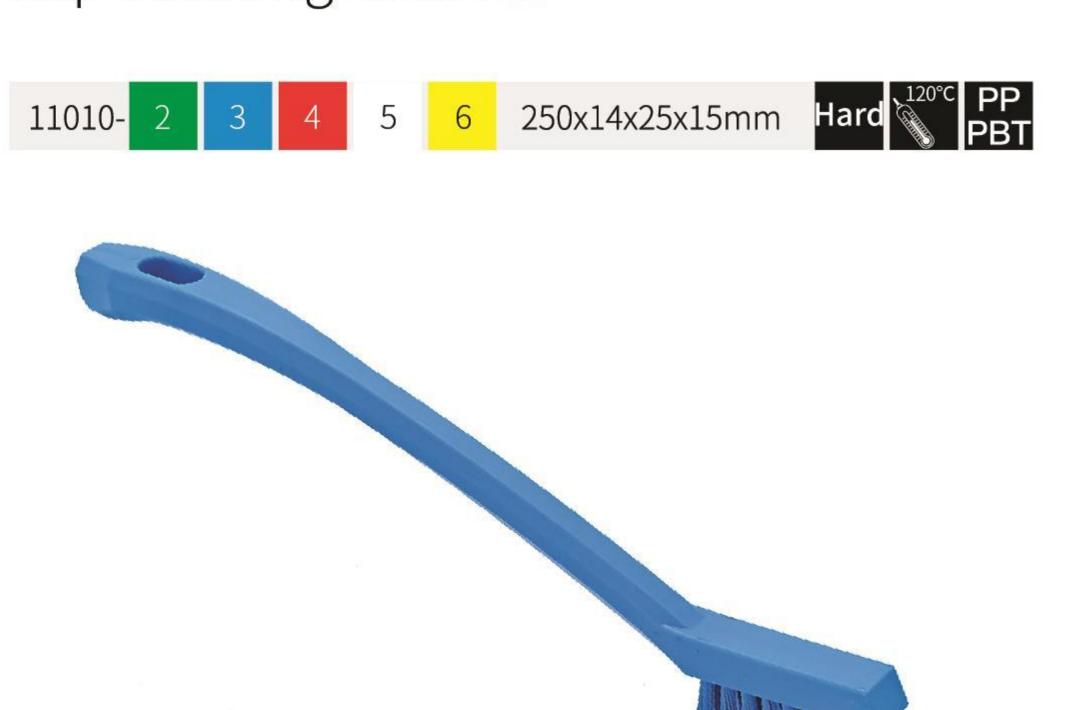

#### Pastry Brush

#### Gap Cleaning Brush

It can be used to clean small gaps and other cleaning tools.

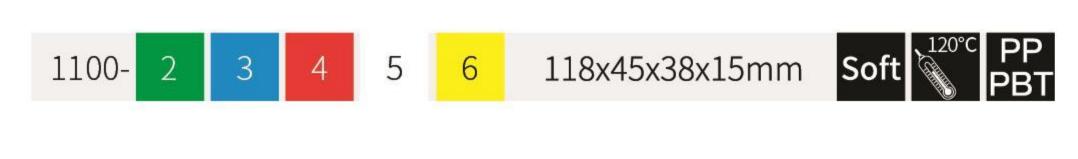

## XC Soft Flour Brush-Style B-(Long Handle Gap Cleaning Brush)

#### Dish Brush

#### Nail Brush

To clean fingernails or to narrow environments.

#### Hand Scub Brush

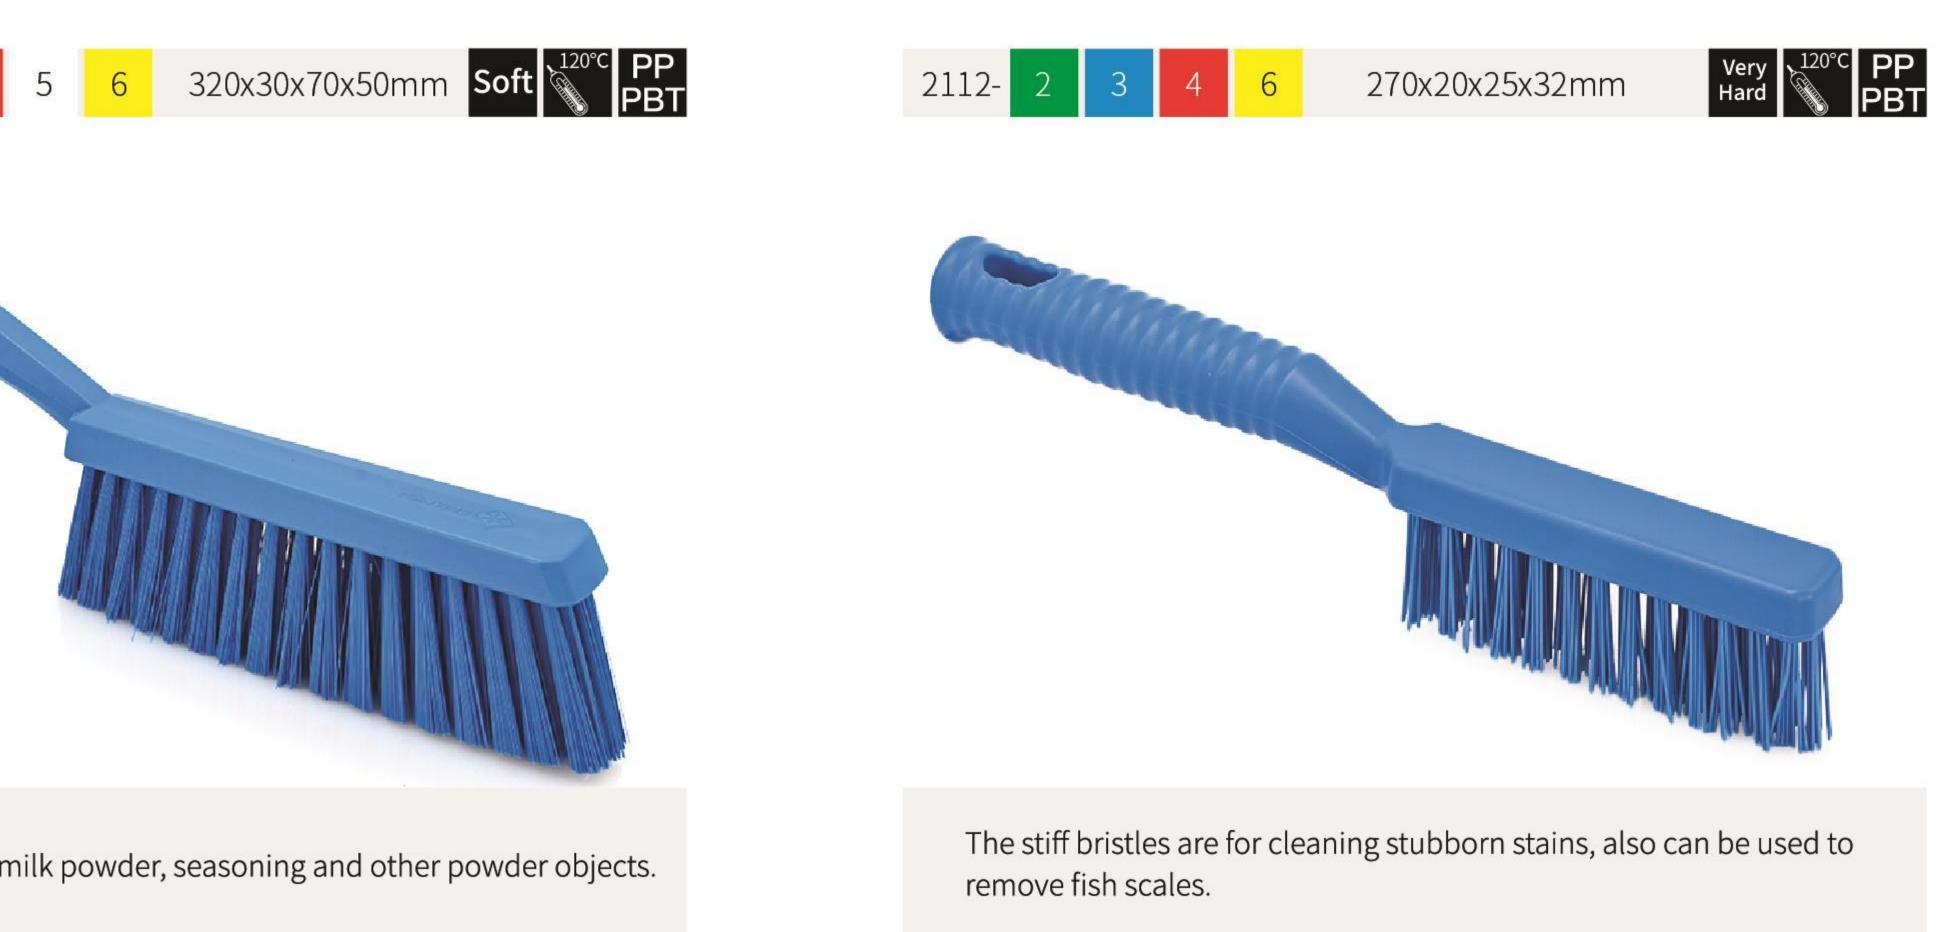

various parts.

#### Powder Brush

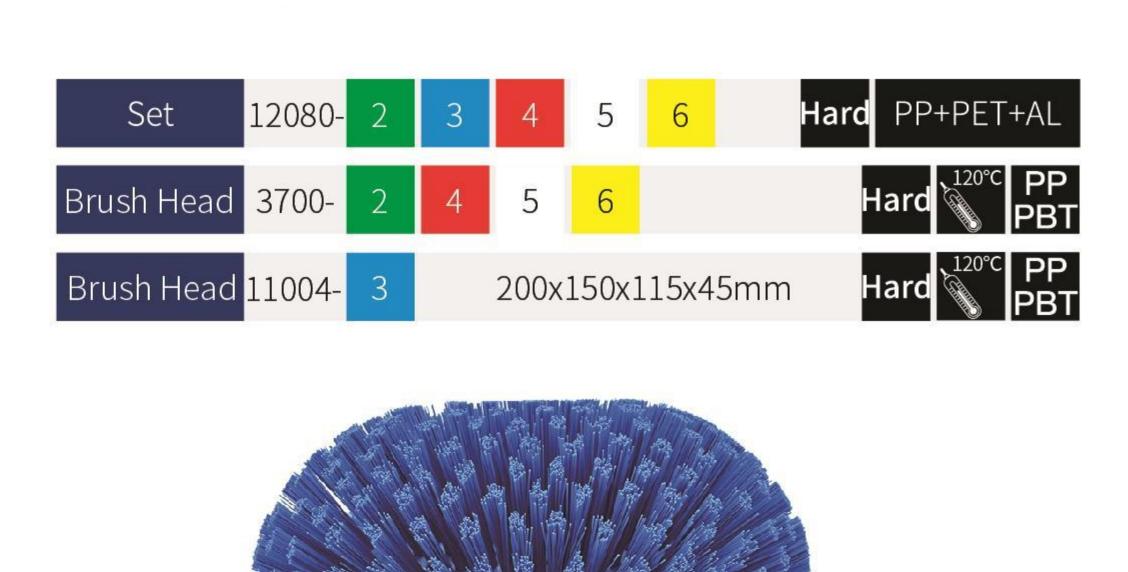

#### Fish Scale Brush

#### Waterfed Brush

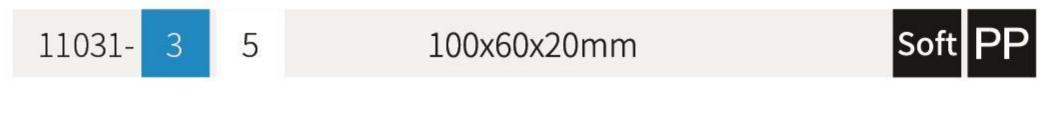

#### Tank Brush

Oval brush head, match with different length Aluminum Handles, such as 14038, for cleaning internal of pot and can container.

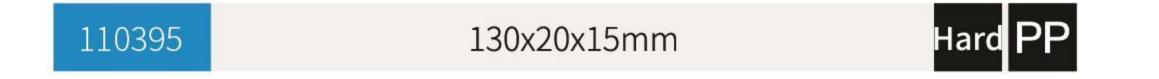

#### Nail Brush

A brush designed to clean nails.

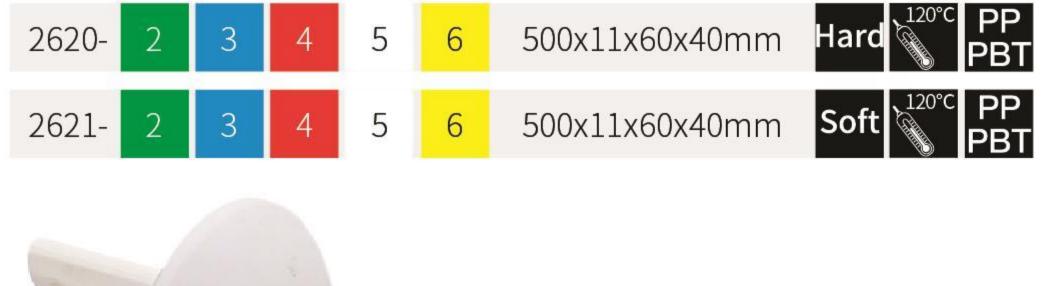

#### Small Equipment Brush

The top of the brush is designed with stiff bristles to facilitate cleaning equipment gaps.

#### Hand Guarded Brush

With hand guard design, it's used for cleaning dangerous equipment, such as blades.

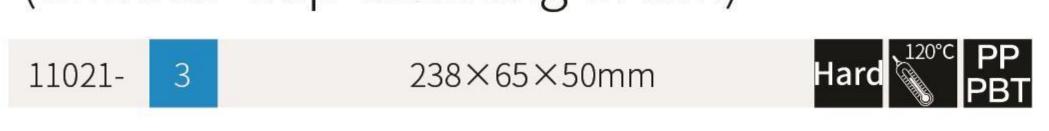

#### Brush For Meat Mincer

Special brush for cleaning meat grinder and pipeline equipment.

#### XC Pan Cleaning Brush-Style B (Circular Gap Cleaning Brush)

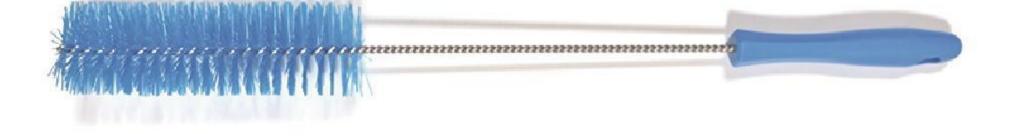

Used for cleaning the inside of pots and can-shaped containers.

#### Tube Brush

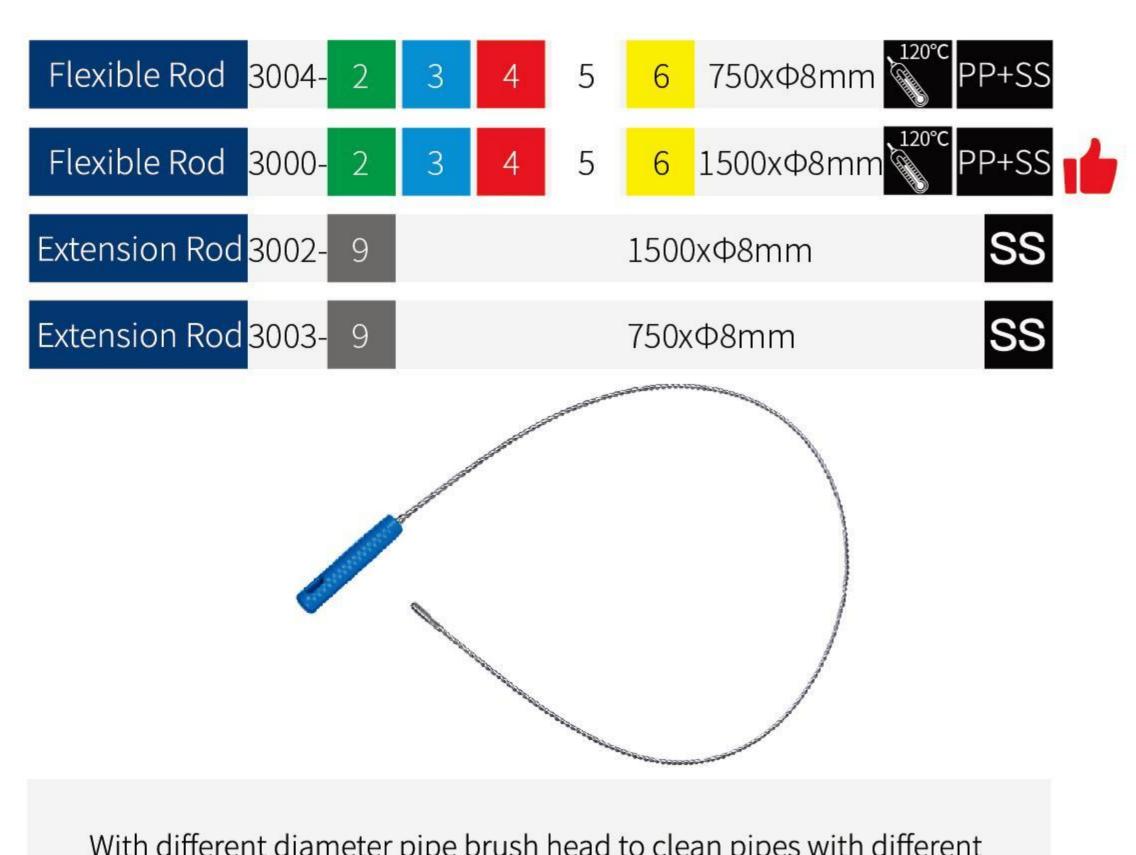

Used for cleaning pipes and bottles with different diameters.

#### Tube Brush Head

With the stainless steel flexible rod to clean pipes with different diameters.

#### Stainless Steel Flexible Rod

With different diameter pipe brush head to clean pipes with different diameter.

#### Pipe Brush Head

Aluminum rods with different lengths are used to clean large diameter pipes.

#### Pipe Outer Surface Brush

#### Drainge Ditch Brush

countertops, the integrated construction is more hygienic.

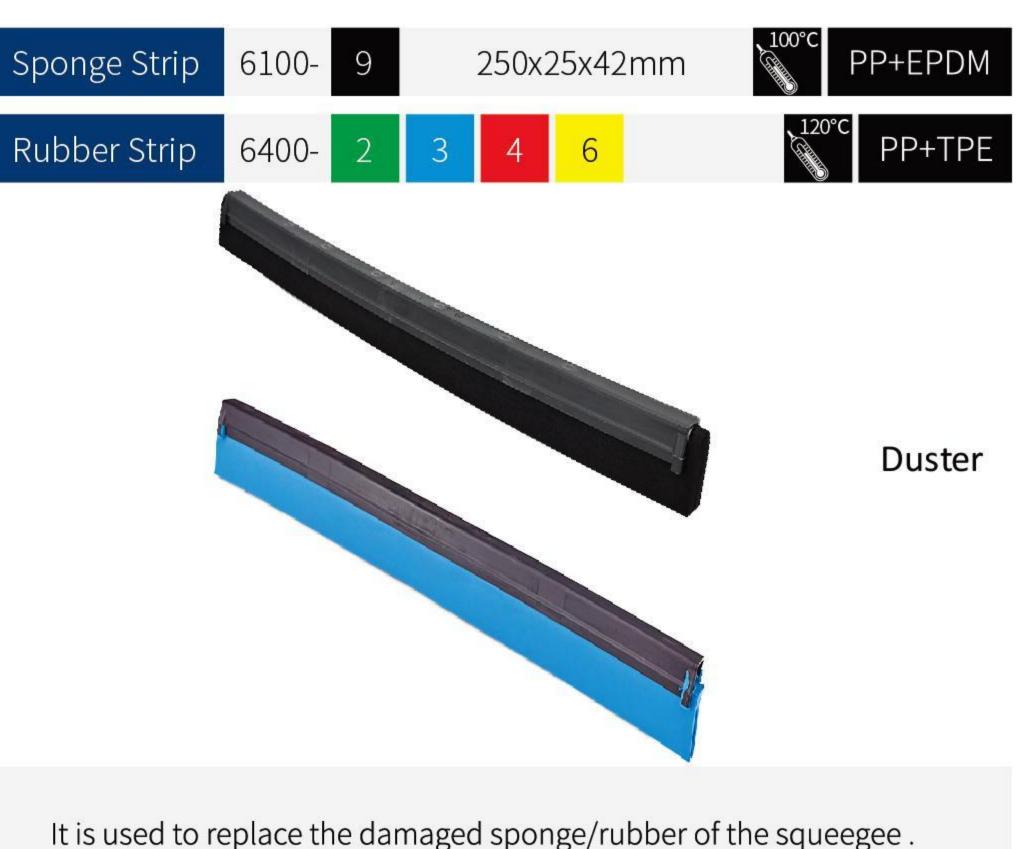

#### Hand Wiper (Rubber)

#### Hand Wiper (Sponge)

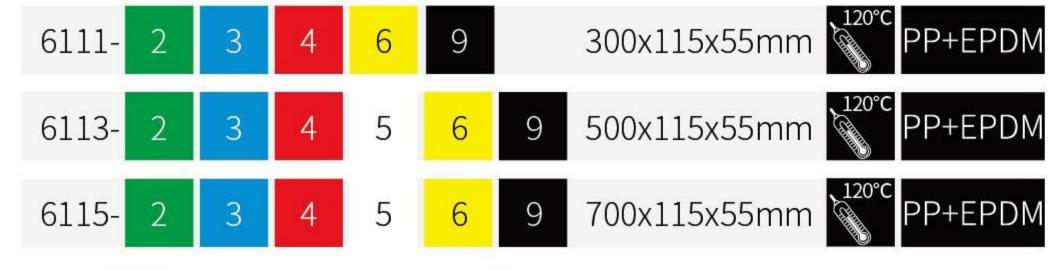

#### Replacement Sponge/Rubber Strip

It is used to replace the damaged sponge/rubber of the squeegee .

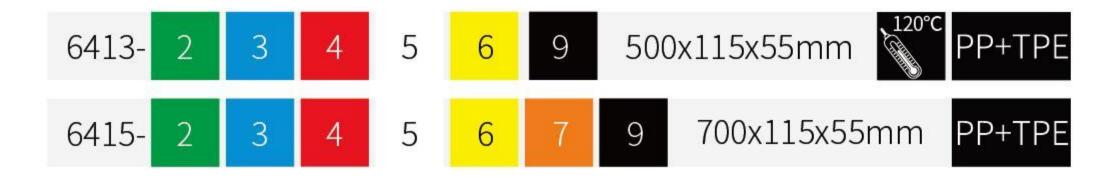

#### Squeegee With Replaceable Sponge (Fixed Neck)

It's used for removing particles or lumps of dirt mixed with water from the floor, also can be used to scrape water off the glass.

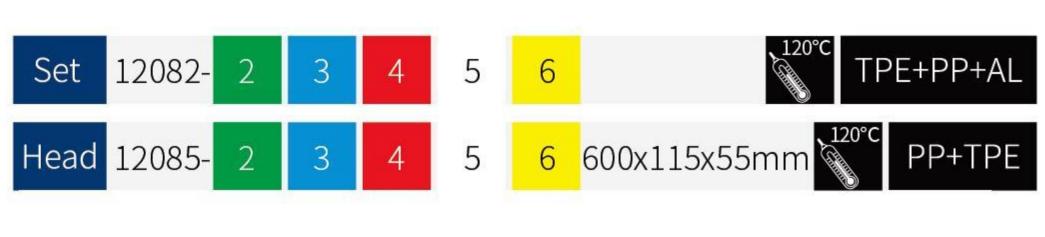

#### Squeegee With Replaceable Rubber (Fixed Neck)

It's used for removing particles or lumps of dirt mixed with water from the floor, also can be used to scrape water off the glass.

Single Tablets Integrated Squeegee 👍

Integrated construction, high hygienic squeegee, it's used for removing

particles or lumps of dirt mixed with water from the floor, also can be

used to scrape water off the glass.

#### Squeegee With Replaceable Sponge (Revolving Neck)

It's used for removing particles or lumps of dirt mixed with water from the floor, also can be used to scrape water off the glass. The squeegee head can be freely rotated, which is more convenient to use.

#### Replace Sponge Strip

61019	300x25x42mm	PP+EPDM
61039	500x25x42mm	PP+EPDM
61059	700x25x42mm	PP+EPDM

It is used to replace the damaged sponge of the squeegee.

#### Double Tablets Squeegee (Revolving Neck)

6813-	2	3	4	6	9	500x115x55mm
6815-	2	3	4	6	9	700x115x55mm

It's used for removing particles or lumps of dirt mixed with water from the floor, also can be used to scrape water off the glass. The squeegee head can be freely rotated, which is more convenient to use.

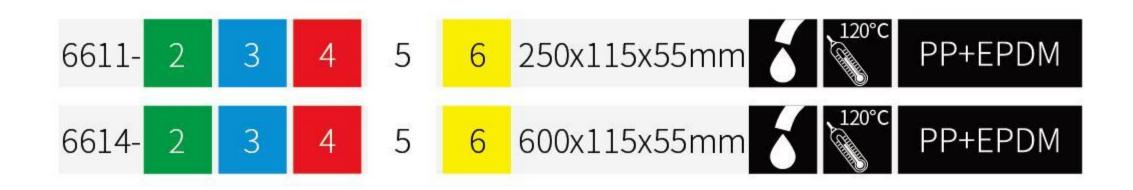

#### Replace Rubber Strip

6403-	2	3	4	5	6	500x25x42mm	120°C	PP+TPE
6405-	2	3	4	6		700x25x42mm	120°C	PP+TPE

It is used to replace the damaged rubber of the squeegee .

#### Condensation Water Squeegee

Collect and drain condensate water from the the ceiling or outside of pipes, and directs it into the bottle below, used with the waterfed handle.

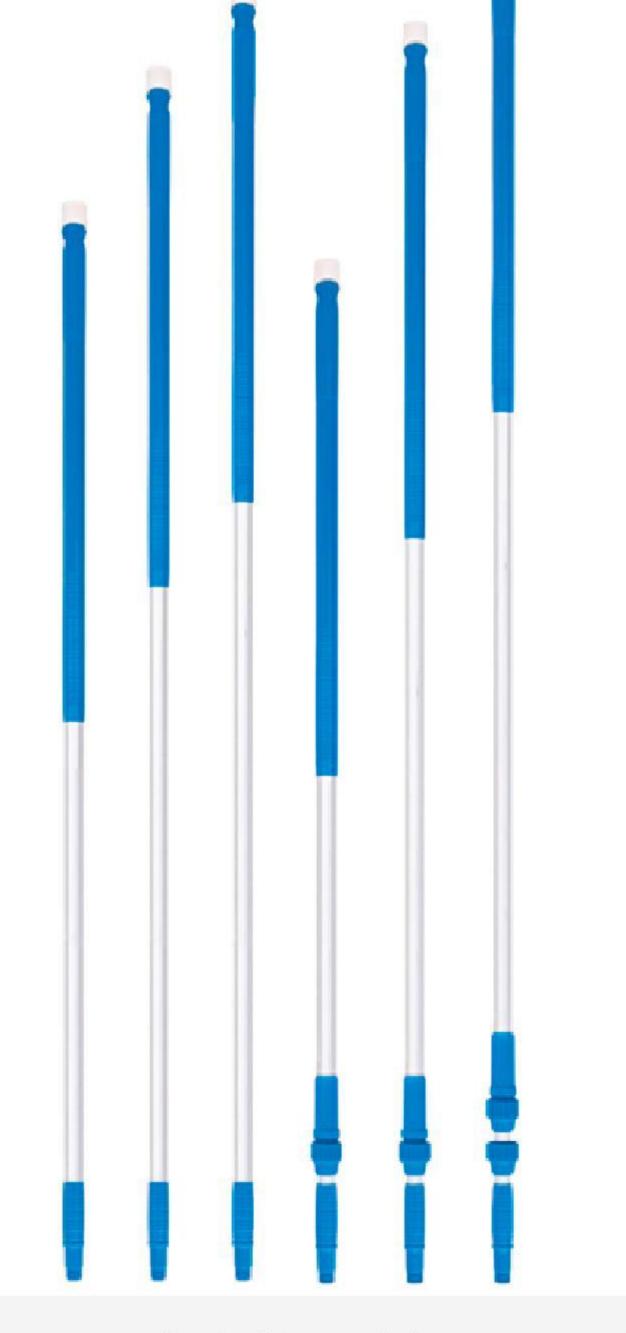

#### Condensate Water Bottle

It can be used with condensation water squeegee and waterfed handle.

#### Alu. Handle Waterfed (Telescopic)

8138- 2	3	4	6		1300xФ32mm	8	PP+AL
8139- 2	3	4	6		1500xФ32mm	8	PP+AL

6.0m	120389	2300-6000xФ35mm	PP+AL

The rod can be stretched to different lengths, and the aluminum part is anodized, which is strong and durable

#### Floor Cleaning Brush

Brush for floor cleaning, can be matched with different lengths of aluminum rods such as 14038.

#### Corner Brush

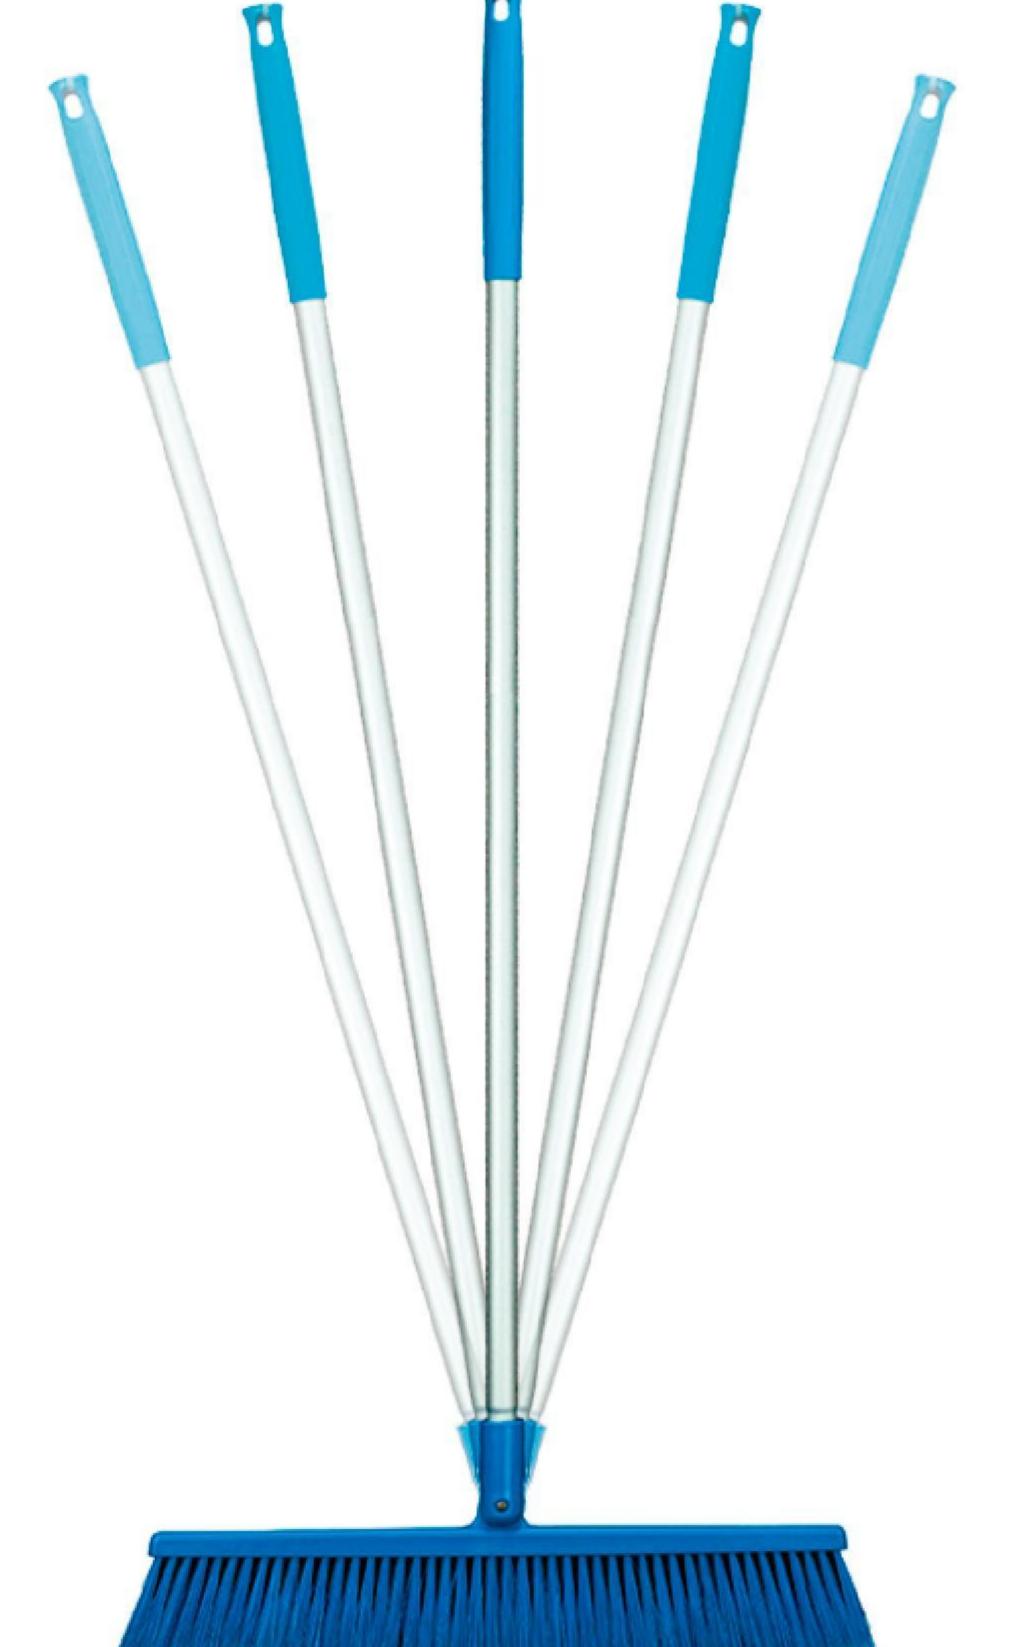

Adapts to different lengths handles such as 14038, special bristle angle is designed for cleaning corners and equipment edges.

#### Revolving Neck Broom

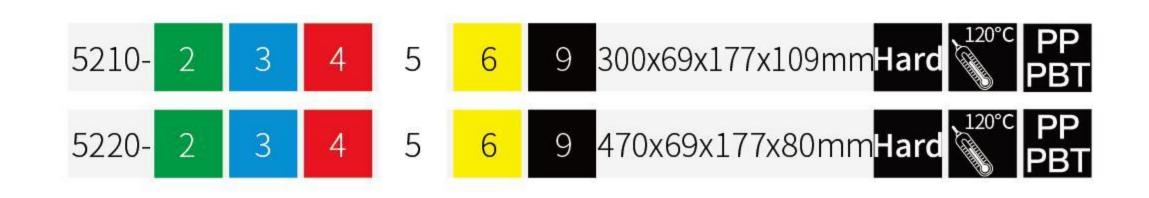

The broom head is rotating, with 1.4m portable Aluminum handle to clean large area conveniently and flexibly.

#### Light Broom Head

11013-	2	3	4	5	6	320	x30x1	.35x70mm	Soft 120°C	PP PBT
5106-	2	3	4	5	6	7	9		Soft 120°C	PP PBT

#### Strong Broom Head

Equipped with rods of different lengths, such as 14003, for cleaning large and heavy sundries.

#### Broom Head (Soft)

dust and particles.

Equipped with rods of different lengths, such as 14003, for cleaning small dust and particles.

#### Broom Head (Hard)

Coarser and stiffer broom bristles, with different length poles such as the 14003, for sweeping up larger pieces of debris.

#### Broom&Dustpan Kit

For sweeping fine dust or particles from dry floors and collecting them into dustpan, the broom handle can be clamped onto the dustpan handle.

Windproof Broom&Dustpan Kit

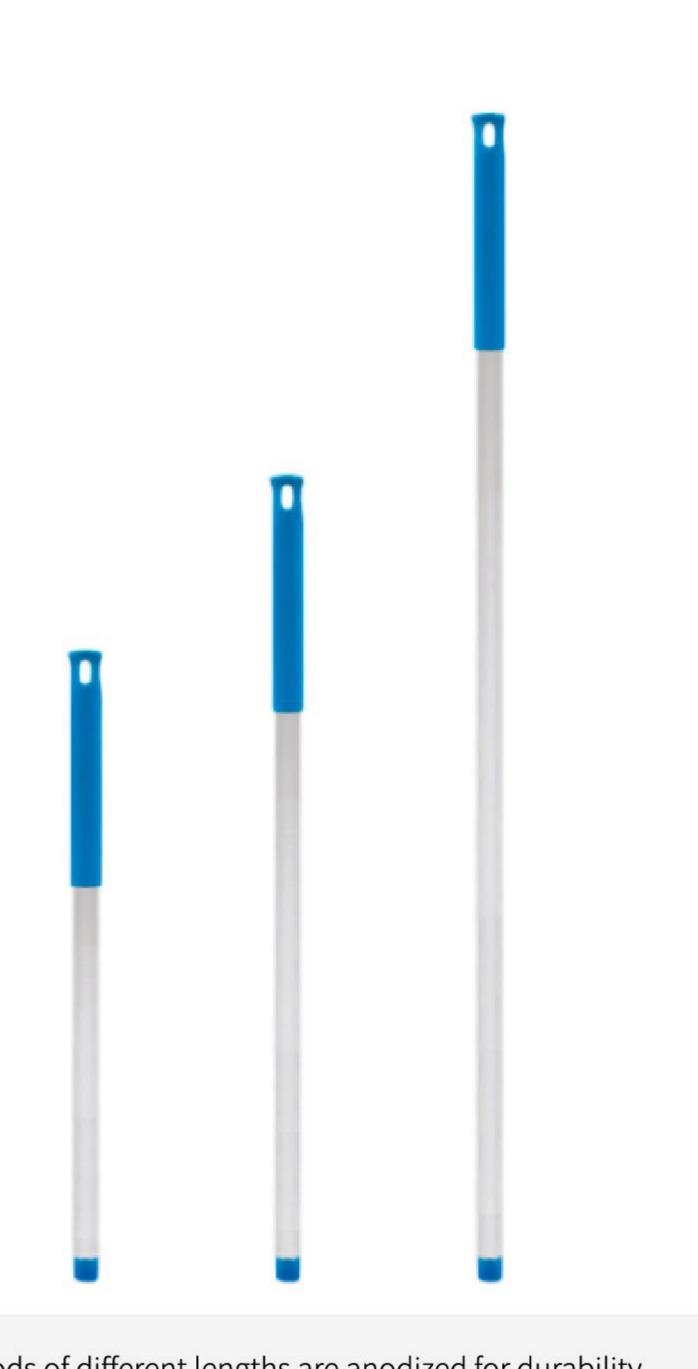

Thickened windproof design, folding storage, avoiding garbage scattering, saving storage space.

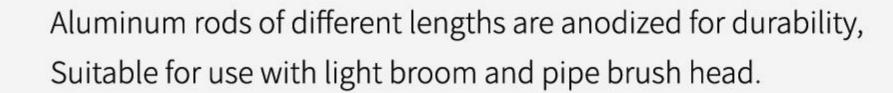

#### Ergonomic Alu.handle(Portable)

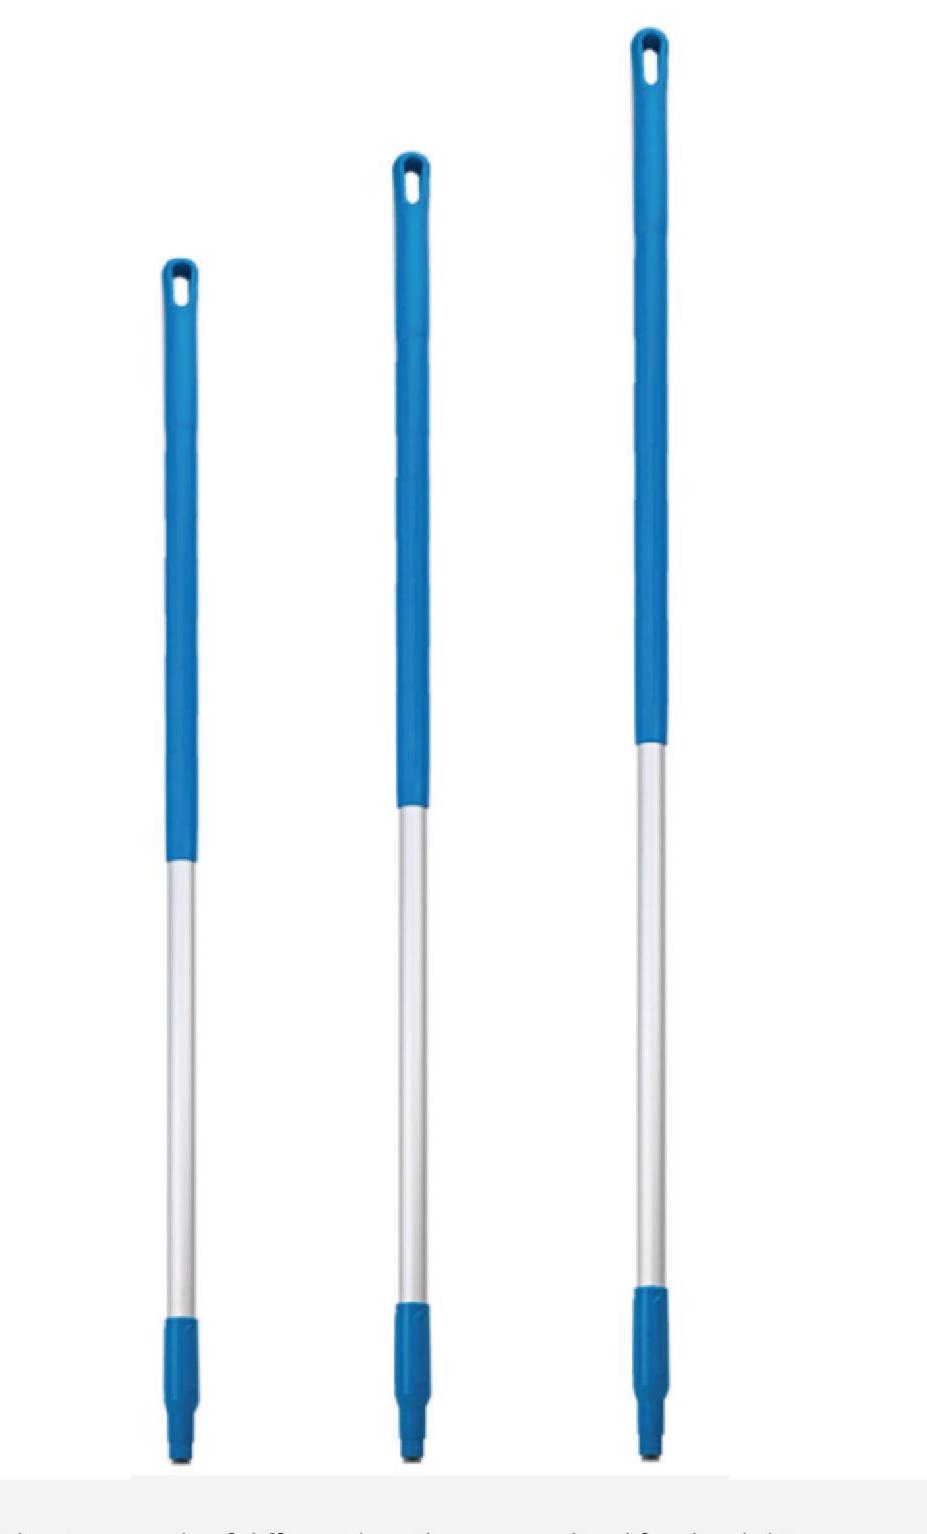

14006-	2	3	4	5	6	500xФ28mm	PP+AL
14003-	2	3	4	5	6	850xФ28mm	PP+AL

28

#### Aluminum Flat Dust Mop

It's made of microfiber, lint free, and the flat plate is rotating for easy cleaning.

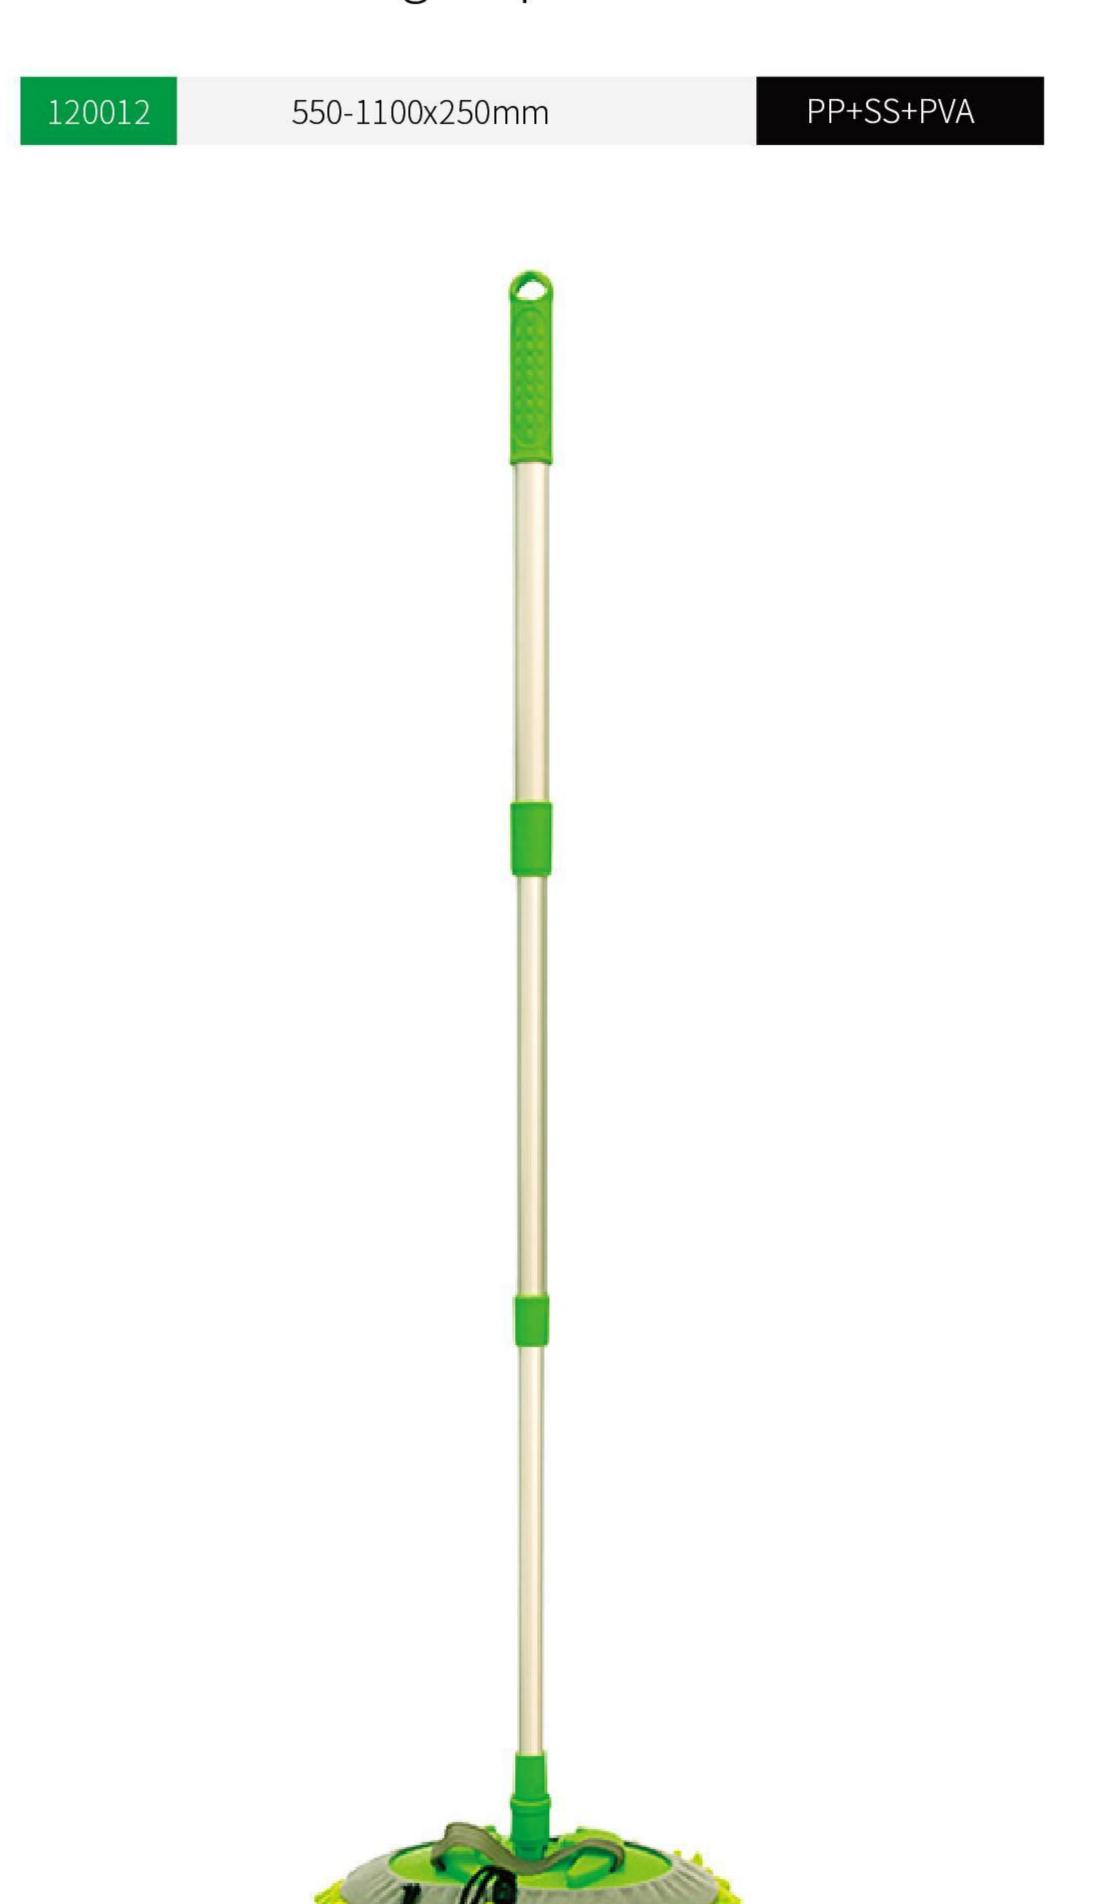

#### Clean Dust Mop

Stainless steel dust mop rack, rust free, durable and long-lasting. Thickened Aluminum handle, strong and durable, dry and wet, four colors are available.

#### Surface Cleaning Mop

No hair falling and hanging silk, good water absorption, clean and don't hurt the surface. Telescopic rod design, brush head can be rotating.

#### Roller Mop

110643 1080-1330x380mm ABS+SS+PVA

The extended cotton strip can clean quickly, good water absorption, it has a reinforced handle and a convenient labor-saving retractable buckle.

#### Polyester Brocade Mop

Specially reinforced mop handle, solid and durable. Good wear-resistance mop head for conveniently floor cleaning. The mop head color is brightly colored to distinguish.

#### Microfiber Mop

Specially reinforced mop handle, solid and durable. Microfiber material mop head has a good water absorption for easy floor cleaning.

#### Cotton MOP

Specially reinforced mop handle, solid and durable. Microfiber material mop head has a good water absorption for easy floor cleaning.

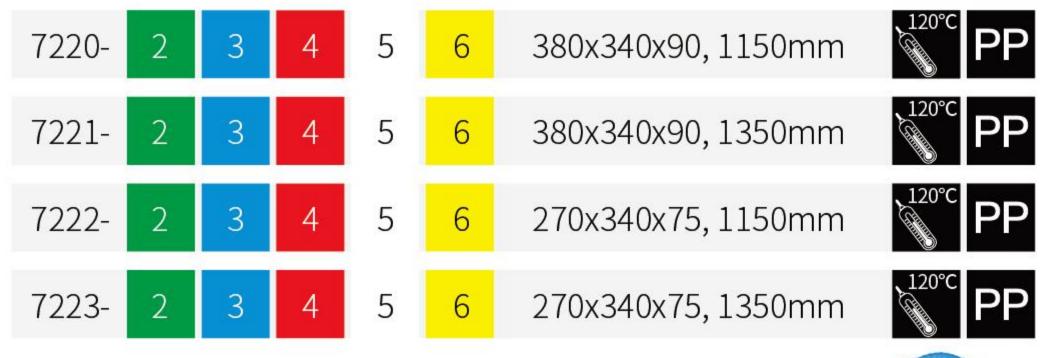

#### Curved Mop

The mop cover is made of microfiber material, no hair shedding, equipped with different length telescopic handl, such as 120389, for easy cleaning.

#### Flat Handle Shovel

It's strong and durable, and can contact with food directly. Shovel handle is almost parallel to the shovel head. Ideal for lifting materials from conveyor belt, platform, and other high places.

#### Ordinary Type Shovel(with holes)

It's strong and durable, and can contact with food directly. The shovel handle is at an angle to the plane of the shovel head, suitable for shoveling materials from the ground, and the perforated design allows for filtering out liquids during the shoveling process.

#### Ordinary Type Shovel

380x340x90,	6	5	4	3	2	7210-
380x340x90,	6	5	4	3	2	7211-
270x340x75,	6	5	4	3	2	7212-
270x340x75,	6	5	4	3	2	7213-

It's strong and durable, and can contact with food directly. The shovel handle is at an angle to the plane of the shovel head, suitable for shoveling materials from the ground.

#### Stainless Steel Shovel

440043 335x280,1500mm 304SS

304 stainless steel, all welded joints are sealed without sanitary dead corners. Suitable for high cleaning workshop.

#### Long Handle Mixing Shovel

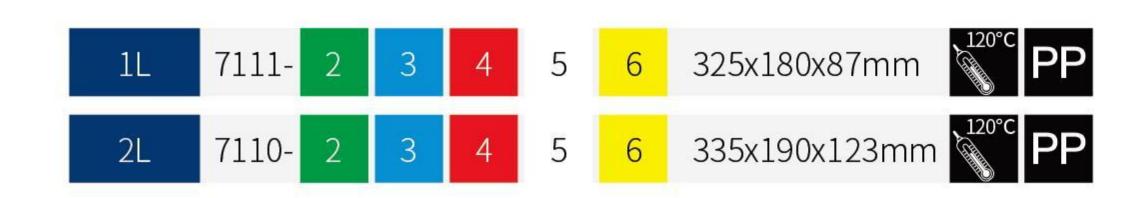

#### Long Handle Mixing Shovel (With Hole)

43145	1200x170x35mm	PP
43175	1200x170x35mm	Nylon

It's used for mixing materials in the container. There's are holes on the plates to reduce resistance during mixing. The broken fragments of 4315 and 4318 can be detected by the metal detector.

#### Scoop

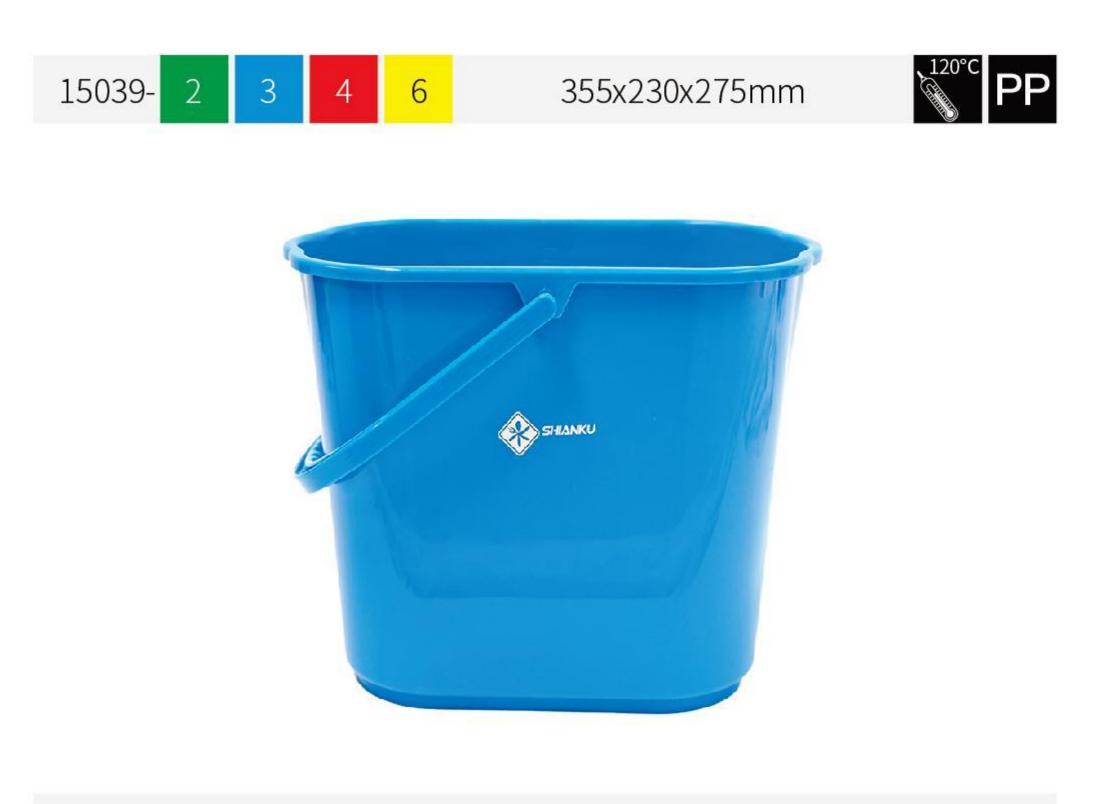

Transfer liquid ingredients, with scale indicating volume.

#### Bucket

Used to hold food and other liquids, with scale inside, triangular design is easy to use, can be equipped with a special lid, stacked to save space.

#### 14L Graduated Bucket 📫

To hold food and other liquids, also used as a clean bucket.

#### 16L Pedal Water Press

Durable and easy to use, the mop can be dehydrated with a light step.

It is used for mixing the materials in the container.

#### Pedal Type Dustbin

#### Trash Bag

60g/pc, 0.04mm in thickness	550011	1200x1400mm	PE+mPE

#### Multifunctional Cleaning Trolley

Cleaning Trolley(With Rubber Clasps)	45001-	3	500x8	300x10 <b>PP</b> m
Cleaning Trolley(Without Rubber Clasps)	45005-	3	9	PP
Rubber Clasp(Multifunctional tools hanger accessories)	53035-	2 3	4 6	Silica Gel

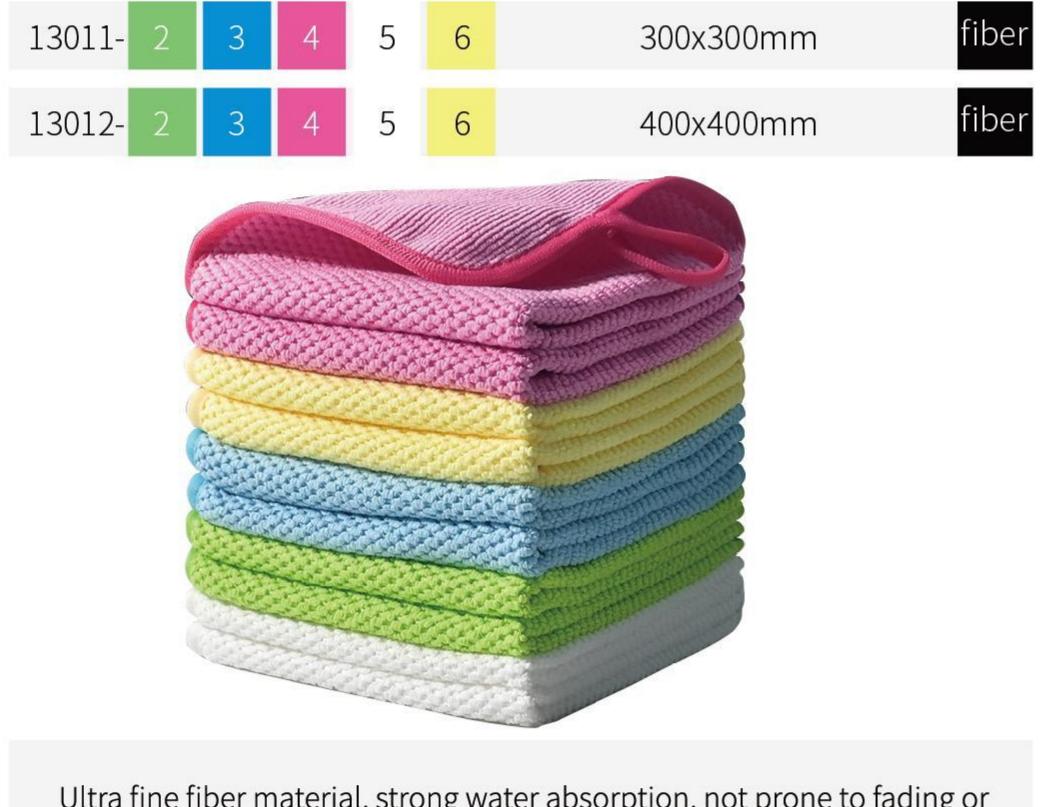

Depending on the workshop cleaning requirements, it can be equipped with a variety of tools to become a mobile workstation for cleaning workshop conveniently and quickly.

#### Microfiber Towel 💼

Food grade microfiber material, unique small pearl weaving method to prevent fiber shedding, rounded corners design to reduce wrapping joints. Strong water absorption, no pilling, no threads, firm and durable, easy to clean.

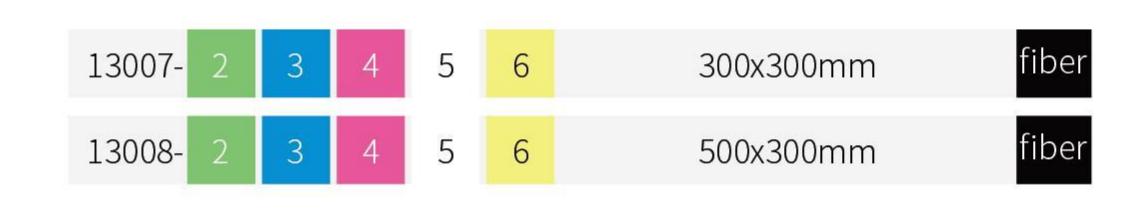

#### Thickened Jacquard Microfiber Cleaning Towel

Ultra fine fiber material, strong water absorption, not prone to fading or shedding, durable and easy to clean.

#### vel

#### Three-layer composite clean towel 👈

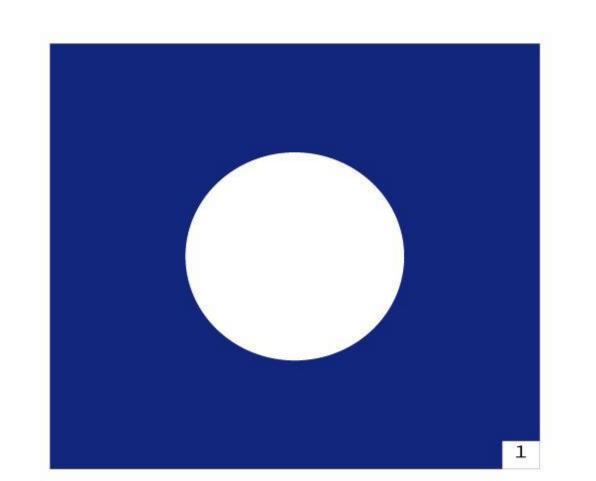

Strong water absorption, no hair, no fading, no water mark, dry and wet dual-use, can play a certain polishing effect.

#### Air Shower Dust Stick

30pcs/sheet, 10 sheets/carton 130103 380x330mm

Mainly used at the air outlet of the air shower room to avoid secondary dust falling into the workshop and effectively reduce the impact of hair dust on the environment.

#### FH Thickened Large Pearl Towel

Food grade microfiber material, unique big pearl weaving method to prevent fiber shedding, rounded corners design to reduce wrapping joints. Strong water absorption, no pilling, no threads, firm and durable, easy to clean.

#### **HLY Precision Woven Towel**

Food grade ultrafine fiber material, woven using warp knitting method, knitted fabric has good elasticity, rounded design, and reduces binding joints.

#### Disposable Food Grade Wiping Cloth 📫

Thin	130095	300x200mm	Т
Thin	210915	400x400mm	Т
Thick	130345	400x400mm	Т

Food-grade material, unique network structure, tear-resistant, water and oil absorption, wet and dry, no threads, no lint, no dust.

#### **Dust Pad**

30pcs/sheet, 10 sheets/box 130010 600x900mm PE

Highly adhesive, environmentally friendly and odorless. Suitable for food factories, dust-free rooms, laboratories, medical institutions, hotels and other shoe soles cleaning to avoid bringing in dust.

PE

#### 350ML Sprayer

#### 650ML Sprayer

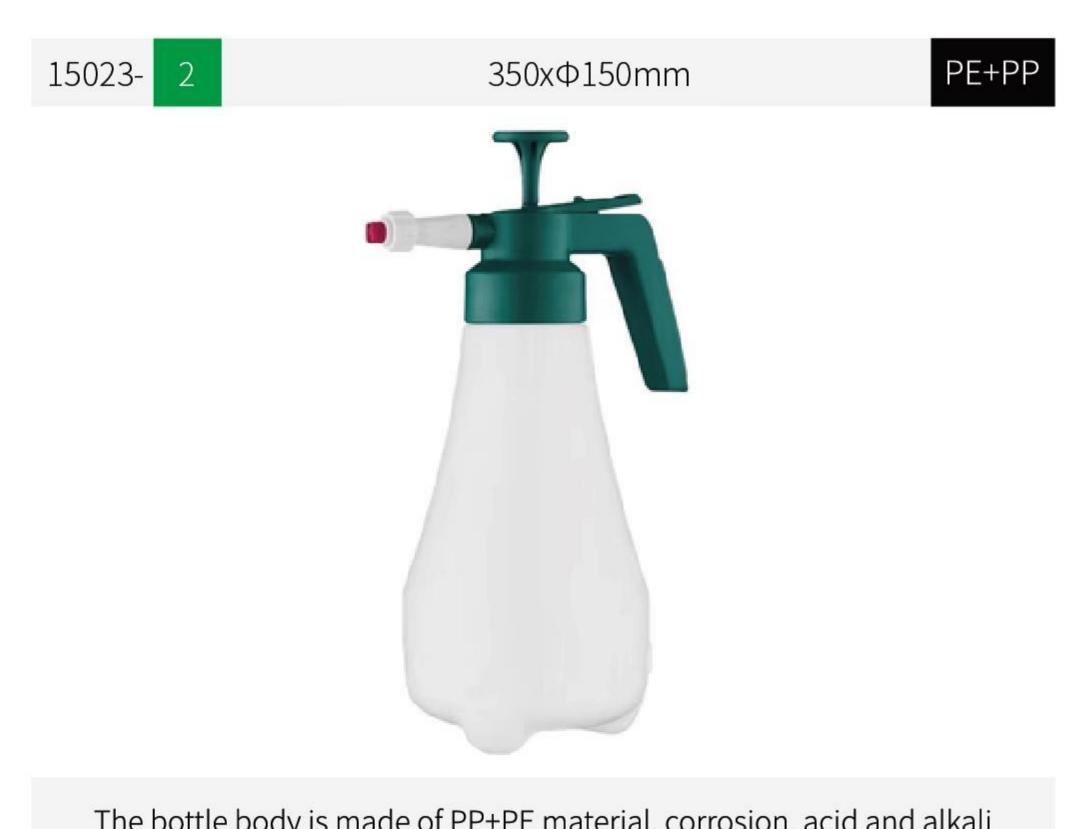

Adopting HDPE food grade materials, professionally resistant to acid and alkali. Enhanced imported nozzle with adjustable atomization/water column states. (The red spray volume is 1.0ml/time, and the blue spray volume is 3.5ml/time). The filter screen at the bottom of the suction pipe can effectively filter out some impurities, and the words are printed on screen, lasting and not fading.

#### Sprayer Hanger

less space and more stability. Used with 350ml and 650ml sprayers.

#### 1800ML Foam Sprayer

The bottle body is made of PP+PE material, corrosion, acid and alkali resistance, spray foam with a foaming detergent.

#### 1800ML Corrosion Resistant Sprayer

#### 1600ML Electric Sprayer

rust resistant. Fine atomization and strong water column,charging use.

#### Sticky Dust Collector

#### Tear The Lint-removing Paper Roll Diagonally

Sticky roller is made of high quality log pulp and imported pressure sensitive adhesive. The patented design of the hanger protects the sticky roller from polluting the wall.

Gabardine is a kind of twill fabric with the following characteristics.

1. Organizational structure.

The density of warp yarn is usually twice as much as the density of weft yarn, and the weaving structure of fine yarn and high density makes the fabric have good stiffness and durability, and the fabric surface has a fine twill pattern of about 63 degrees.

2.Appearance.

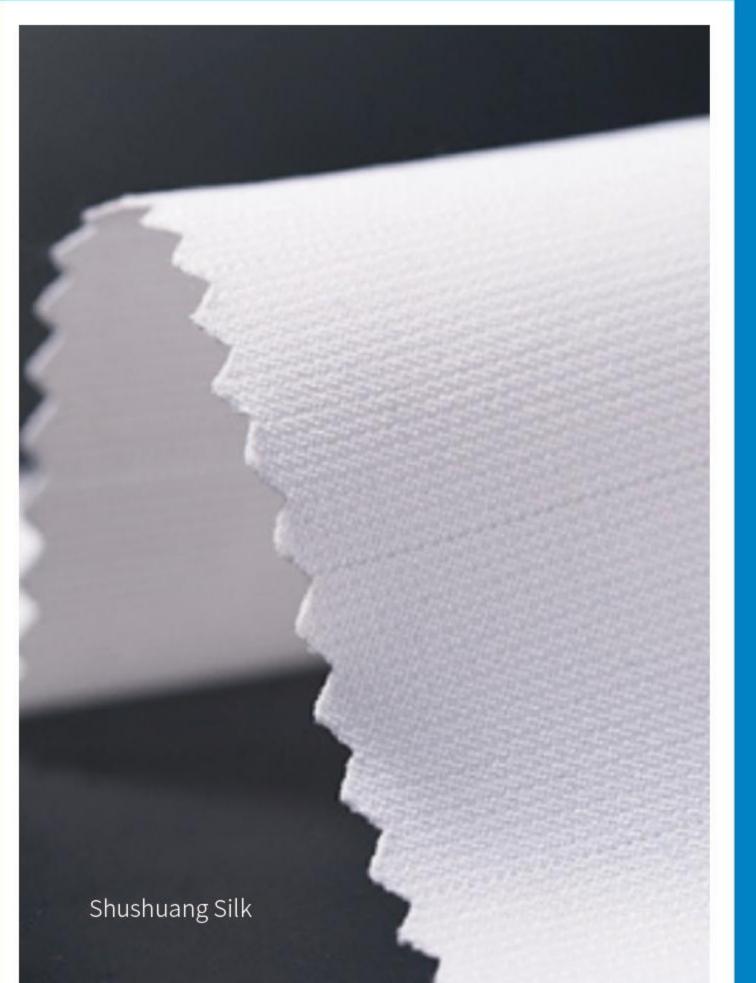

The surface of the fabric is smooth and clean, the twill pattern is clear and detailed, the luster is soft, and it is mostly plain color.

3. Hand feel and durability:

Gabardine is smooth and thick, with compact texture, not easy to pilling, easy to wash, and good durability.

4. Usage: Because of its excellent windproof, warmth and breathability, it is suitable for making various kinds of work clothes and protective articles.

To sum up, with its unique organizational structure, good appearance, comfortable handfeel and excellent durability, Wadatan fabrics are widely used in the field of work clothes and protective articles.

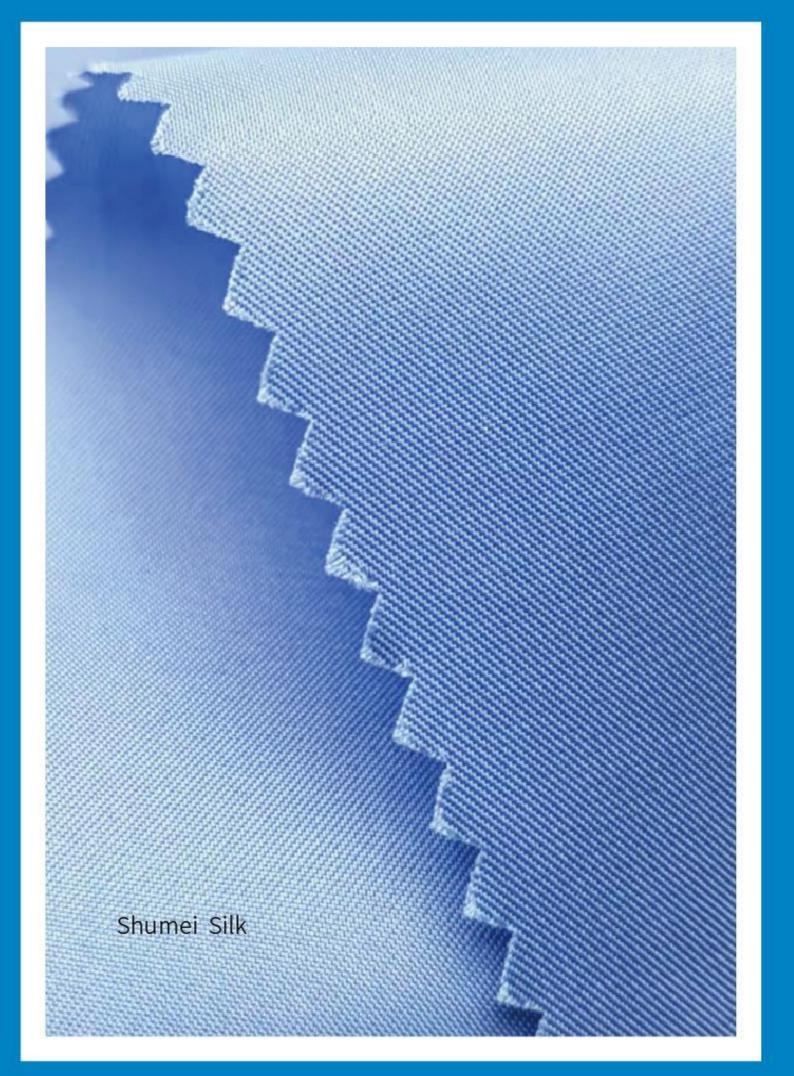

Shushuang silk is a satin fabric, with the following characteristics.

1. Shushuang Silk fabric has permanent moisture absorption and perspiration and anti-static properties, soft touch, easy to wash, not easy to pilling, wearing process can effectively regulate the human body temperature and humidity, improve the comfort of the human body;

2, Shushuang silk material is formed by modified polyester fiber + polyester fiber + conductive fiber composition, the fabric has excellent color fastness, not easy to fade, can effectively prevent dust and hair adsorp-

3. Modified polyester fiber refers to the specific technical processing through the fiber spraying stage, so that the surface structure of the polyester fiber changes, so as to have a moisture absorption, moisture, skin-friendly characteristics.

Because of its permanent moisture absorption, perspiration, and anti-static characteristics, the Shushuang silk fabrics are widely used in the field of work clothes and protective equipment, and become the ideal fabric choice in many fields.

Shumei silk is a twill fabric, with the following characteristics.

- 1. Shumei silk fabric is soft, breathable, wear-resistant, easy to wash, not easy to pilling and other characteristics.
- 2. Shumei silk is a polyester twill fabric, made of polyester filament, color fastness is good, not easy to fade wrinkles, fabric strength is good, wearable and easy to wash, low price.

Quick-drying silk is a twill organization, with the following characteristics!

1. The main function of quick-drying silk is to have permanent mois-

ture-absorbing and perspiration-removing function, and to be able to perspire quickly during wearing, it is not by absorbing perspiration, but by transferring perspiration to the surface of the clothes quickly, and by expanding the area of fiber contact with the air as much as possible to speed up evaporation, so as to achieve the purpose of quick-drying.

- 2. Quick-drying silk good breathability and perspiration performance, can keep the inner fabric dry at room temperature, to avoid the discomfort of sweating, but also reduces the risk of clothing for a long time wet and lead to illness.
- 3. Quick-drying silk also has easy to wash, not easy to pilling, soft and delicate, comfortable to wear and other properties!

  Quick-drying silk protective products can provide good comfort and practicality, to keep employees wearing the body's comfort and dryness.

#### Shumei Silk Protective Cap With A Visor(Earhook)M002b

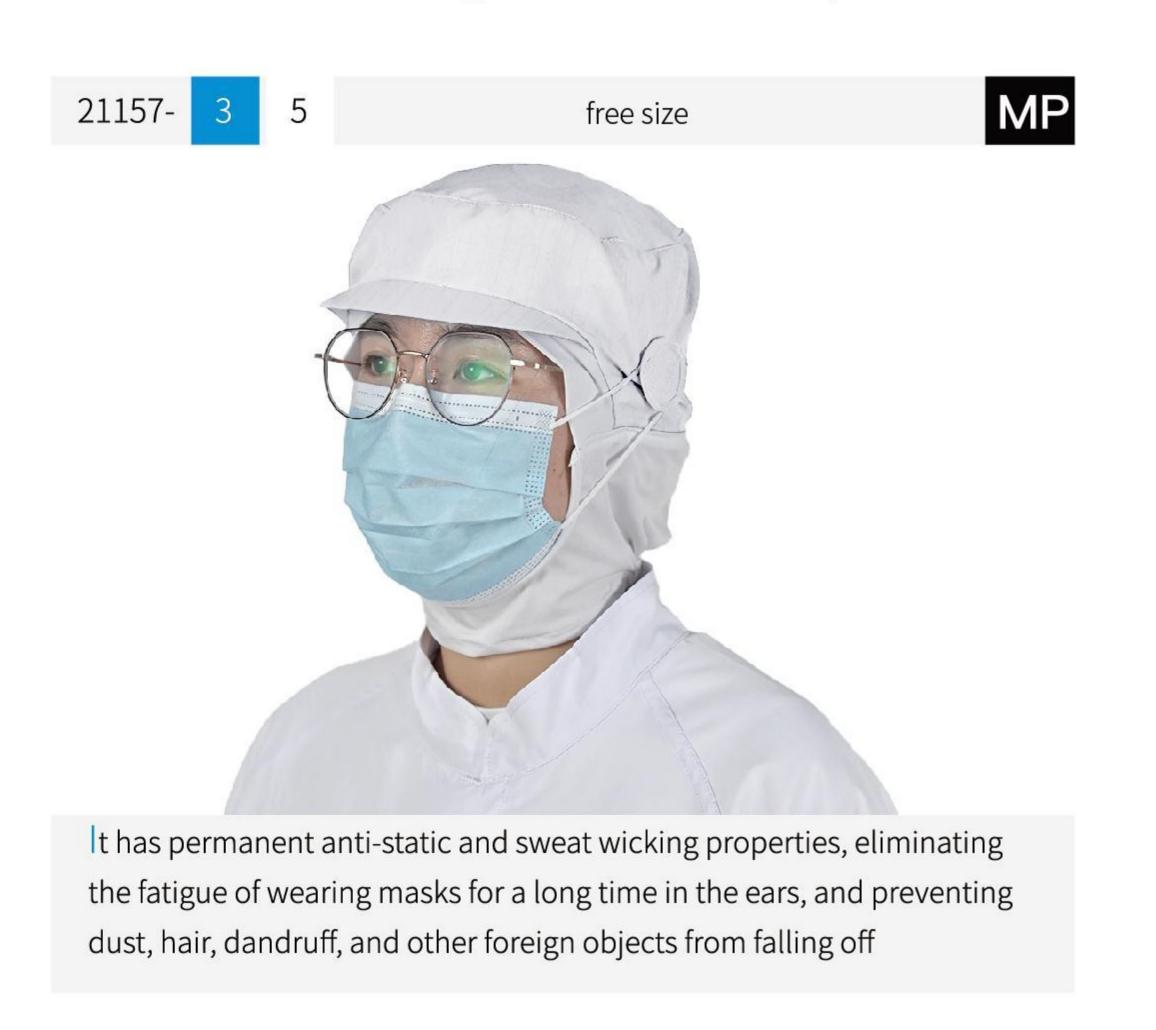

Shumei Silk Protective Cap With A Visor(Earnet)M002C

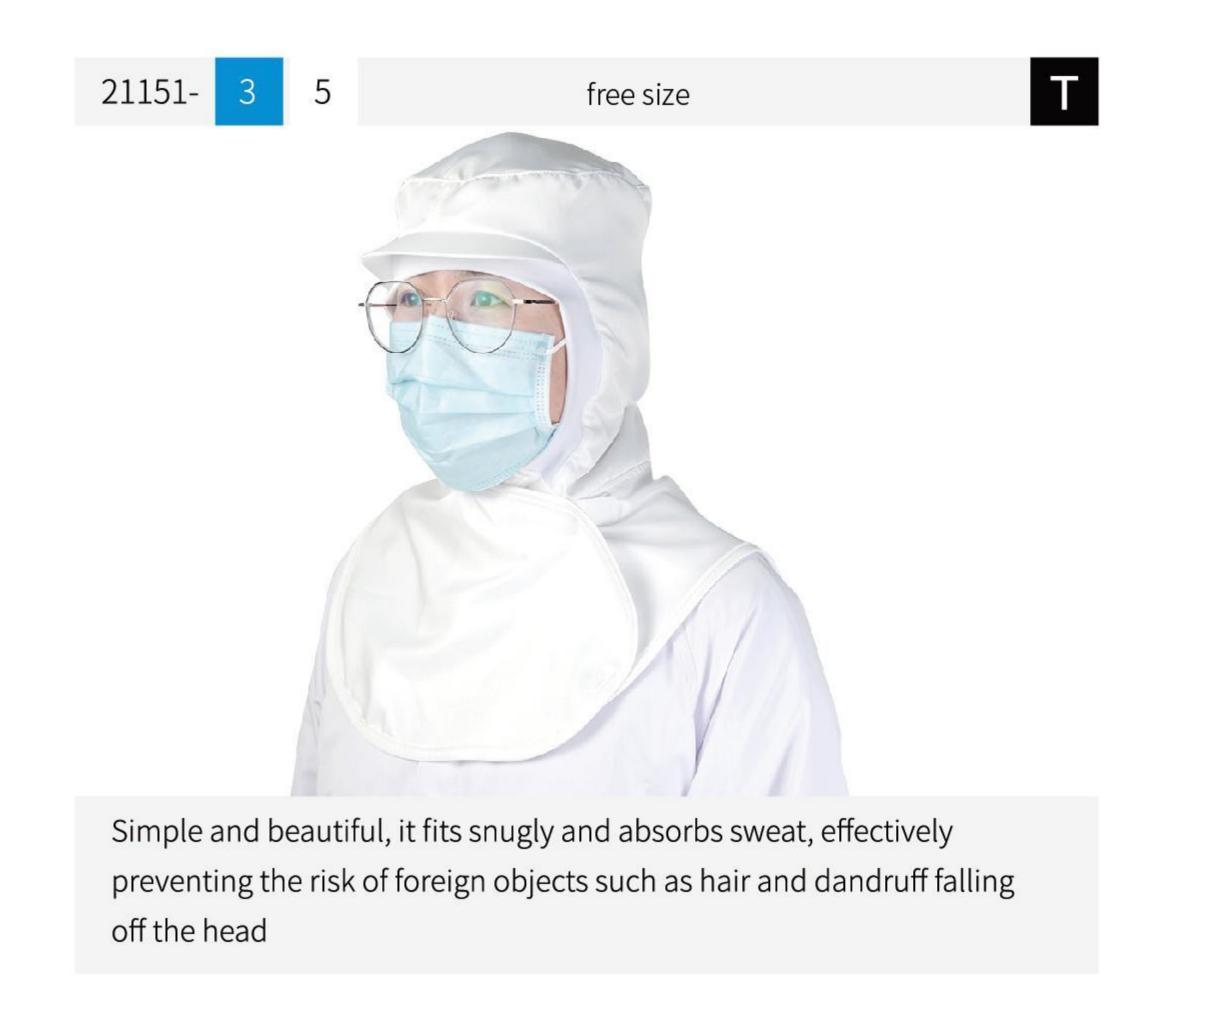

21156- 3 5 free size T

增强耳部透气与排汗性能,有效改善工作过程中头部舒适性, 提高效率。Enhance ear ventilation and sweat wicking performance,

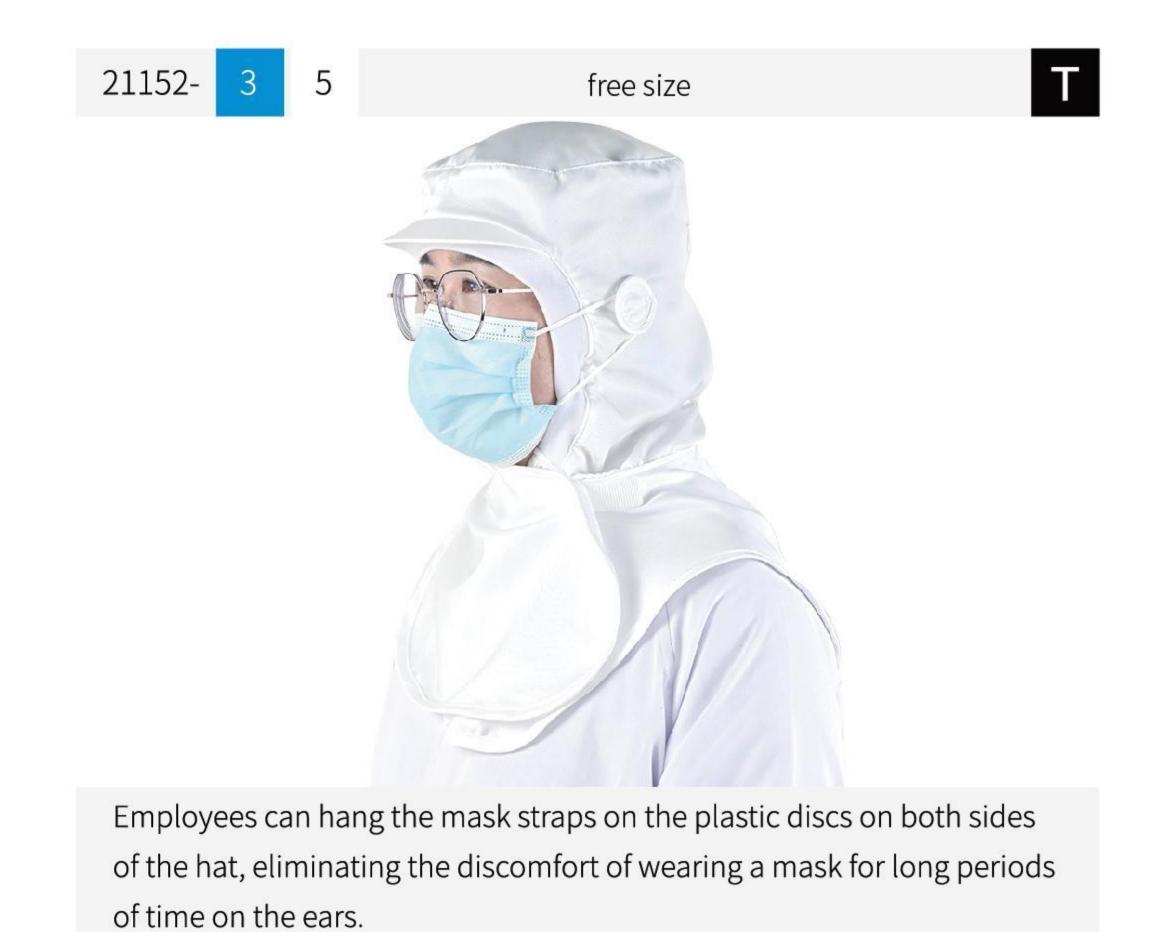

#### Conductive Shushuang Silk Protective Cap (Earhook)M003a

#### Shumei Silk Protective Shawl Cap (Basic)M001A

#### Large Shawl Cap(Earhook) M001B

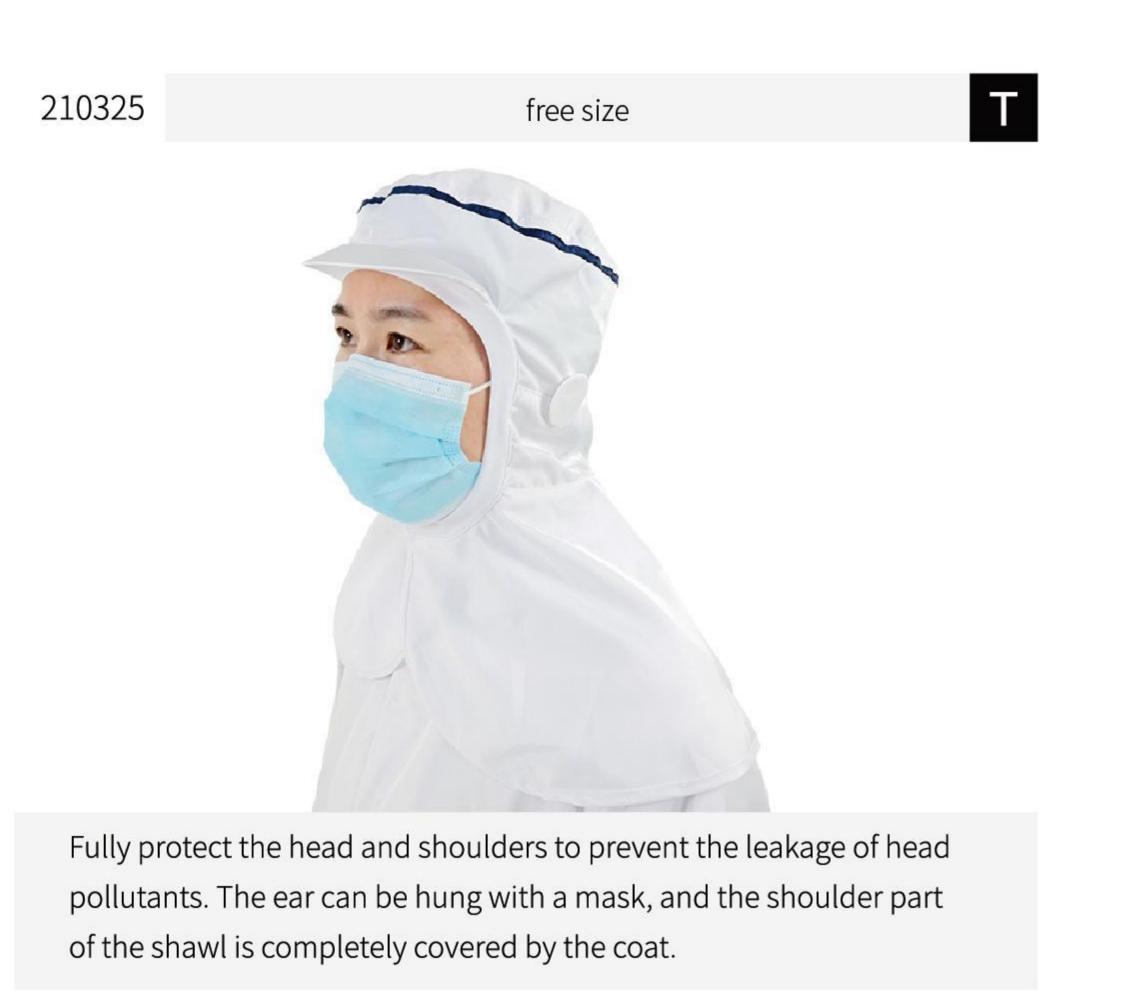

Conductive Shushuang Silk Protective Cap (Lanyard Earhook)M004a

effectively improve head comfort during work, and increase efficiency

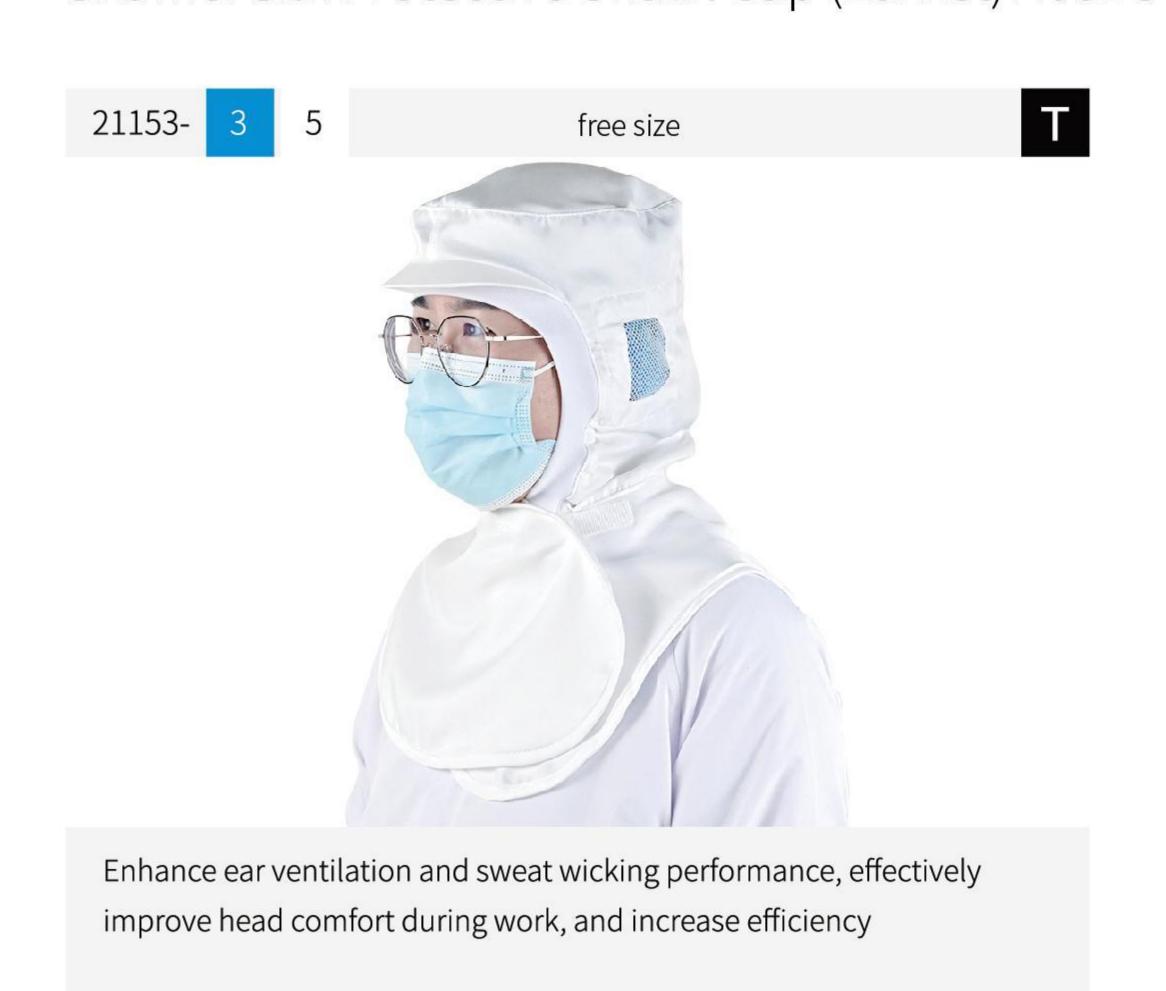

Equipped with permanent anti-static and sweat wicking properties, the ear hook can eliminate the fatigue of wearing masks for a long time in the ears. The lanyard effectively adjusts the comfort of the face and neck for different employees when wearing masks

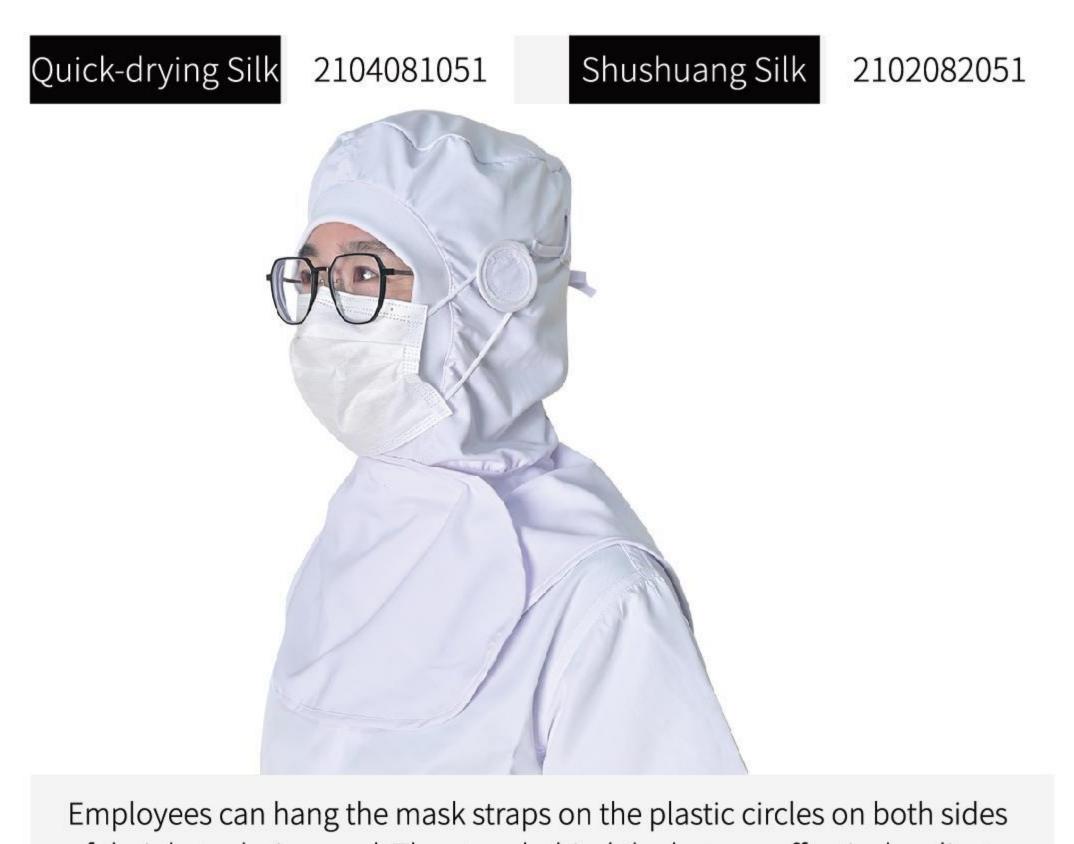

#### MJ Shawl Cap With Brim

#### Shumei Silk Protective Shawl Cap (Earnet)M001C

Brimless Shawl Cap ---Ear Lanyard M008A

of their hats during work, The strap behind the hat can effectively adjust the comfort of wearing depending on the amount of hair.

Silk Brimless Spliced Shawl Cap--Ear Lanyard M008B

Employees can hang the mask straps on the plastic circles on both sides

of their hats during work, The strap behind the hat can effectively adjust

the comfort of wearing depending on the amount of hair.

GF-001 Hooded Pullover Split Work Clothes

Hooded overalls are sweat permeable, permanent anti-static and moisture wicking functionscomfortable to wear and easy to clean.

The coat and protective cap are integrated to effectively protect the head and hair. Prevent contamination of food.

#### GF-002 Stand collar separate work clothes

Stand collar overalls are sweat permeable and comfortable to wear.

Permanent anti-static and moisture wicking functions Easy cleaning and quick drying. The combination design of adhesive buckle and zipper meets the requirements of food safety standards. It can be used with head protective caps such as net cap, food cap and large shawl.

#### MJ Thickened Pullover Hooded Work Suit

Comfortable to wear, thickened and warm, with good drapability, breathable and quick drying, easy to wash, and less prone to pilling; Work clothes can effectively prevent foreign objects such as dandruff and hair from contaminating food.

#### GF-006 Hooded split universal work clothes

Shushuang Silk S-4XL

Hooded overalls are sweat permeable, Permanent anti-static and moisture wicking functions, The coat and protective cap are integrated to effectively protect the head and hair. Prevent contamination of food.

GF-004 Shushuang Silk Triple Work Clothes (Ear Hook Style)

9006 3 5 S-4XL Shushuang Silk

The work clothes adopt YKK zippers, which are sturdy, durable, beautiful and smooth, meeting the standards for exporting to the United States; Using rubber roots containing latex components to tighten the cuffs and cuffs is environmentally friendly, comfortable to wear, and fits the skin, effectively preventing the risk of hair, dandruff, and other foreign objects falling off.

GF-007 Shushaung Silk Stand Collar Separate Work Clothes (Short Sleeve)

229013 5 S-4XL Shushuang Silk

Stand collar overalls are sweat permeable and comfortable to wear.

Permanent anti-static and moisture wicking functions Easy cleaning and quick drying. The combination design of adhesive buckle and zipper meets the requirements of food safety standards. It can be used with head protective caps such as net cap, food cap and large shawl.

GF-008 Shu Shuang Silk Hooded Pullover Split Workwear (Short Sleeves)

S-4XL Shushuang Silk

Hooded overalls have permanent anti-static and moisture-wicking functions, are breathable and comfortable to wear, easy to clean. The top and protective cap are integrated to effectively protect the hair on the head. Prevent contamination of food.

#### MJ VISIT COAT

Comfortable to wear, thickened and warm, with good drapability, breathable and quick drying, easy to wash, and less prone to pilling; It can be paired with protective products such as inner hats and large shawl hats.

DG-001 Quick-drying Stand Collar Coat--Velcro

Comfortable to wear, thickened and warm, with good drapability, breathable and quick drying, easy to wash, and less prone to pilling; It can be paired with protective products such as inner hats and large shawl hats.

#### Shu Shuang Silk Hooded Gown

Comfortable to wear, thickened for warmth, excellent drape, breathable and quick-drying, easy to wash, and does not easily pill; can be used with inner caps, large shawl caps, and other protective products.

#### Long Sleeved Stand Up Collar Coat

1 09 (1-7) 10 (1-7) S-4XL **TC** 

Comfortable to wear, thickened and warm, with good drapability, breathable and quick drying, easy to wash, and less prone to pilling; It can be paired with protective products such as inner hats and large shawl hats.

#### TPU Apron with sleeves

#### TPU Sleeve 💼

TPU material waterproof, antifouling and oil proof, acid and low temperature resistant, light, beautiful and durable, not easy to crack and peel off.

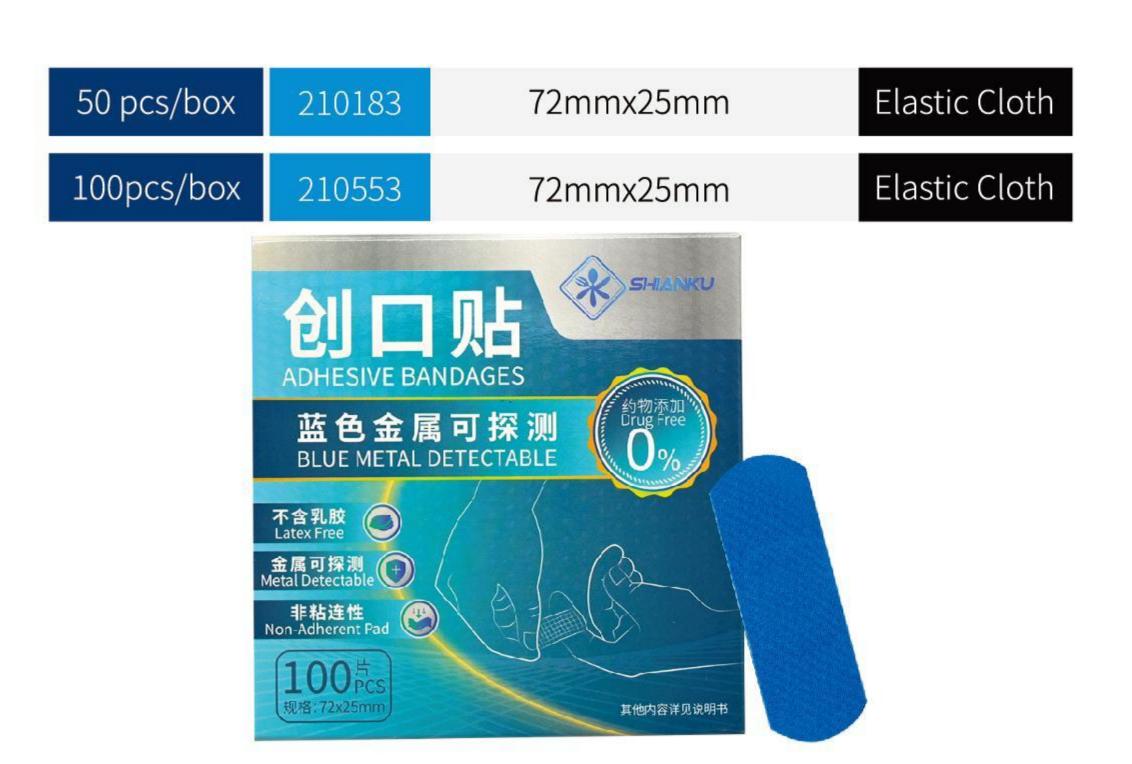

#### Nonwoven Cloth Shoe Cover

613 80 pcs/bag

Disposable non-woven shoe cover, healthy and environmental protection, breathable and anti-skid, convenient storage, suitable for food and drug workshops, hospitals, laboratories, etc.

#### Matel detectable plaster

Matel detectable plasterItcontains metal aluminum foil, which can be identified and detected by metal detector. It can be widely used in food factories and restaurantsstandards and customer factory inspection.

#### CPE Waterproof Shoe Cover

210163 100 pcs/bag CPE

Disposable thickened waterproof shoe cover, made of CPE plastic, has good air permeability, anti-skid, water-proof and wear-resistant functions.

#### Safety Shoes

#### Clean Work Shoes

2405- (35-46) Canvas+Rubber Bottom

White clean work shoes with anti-skid and wear-resistant rubber sole, light and comfortable, strong and durable, and good air permeability.

#### High-top Safety Shoes

steel toe cap, anti-skid and anti-static PU sole, waterproof and

oil-resistant super fiber + polyurethane upper.

#### **PVC Water Boots**

Regular Low Boots	2401-(36-46)	Barrel height 27-29cm	PVC
Regular Mid-calf Boots	2402-(36-46)	Barrel height 32-34cm	PVC
Regular High Boots	2403-(36-46)	Barrel height 36-38cm	PVC
Cotton Mid-calf Boots	2400-(38-46)	Barrel height 32-34cm	PVC
Cotton High Boots	2407-(38-46)	Barrel height 36-38cm	PVC

#### **EVA Water Boots**

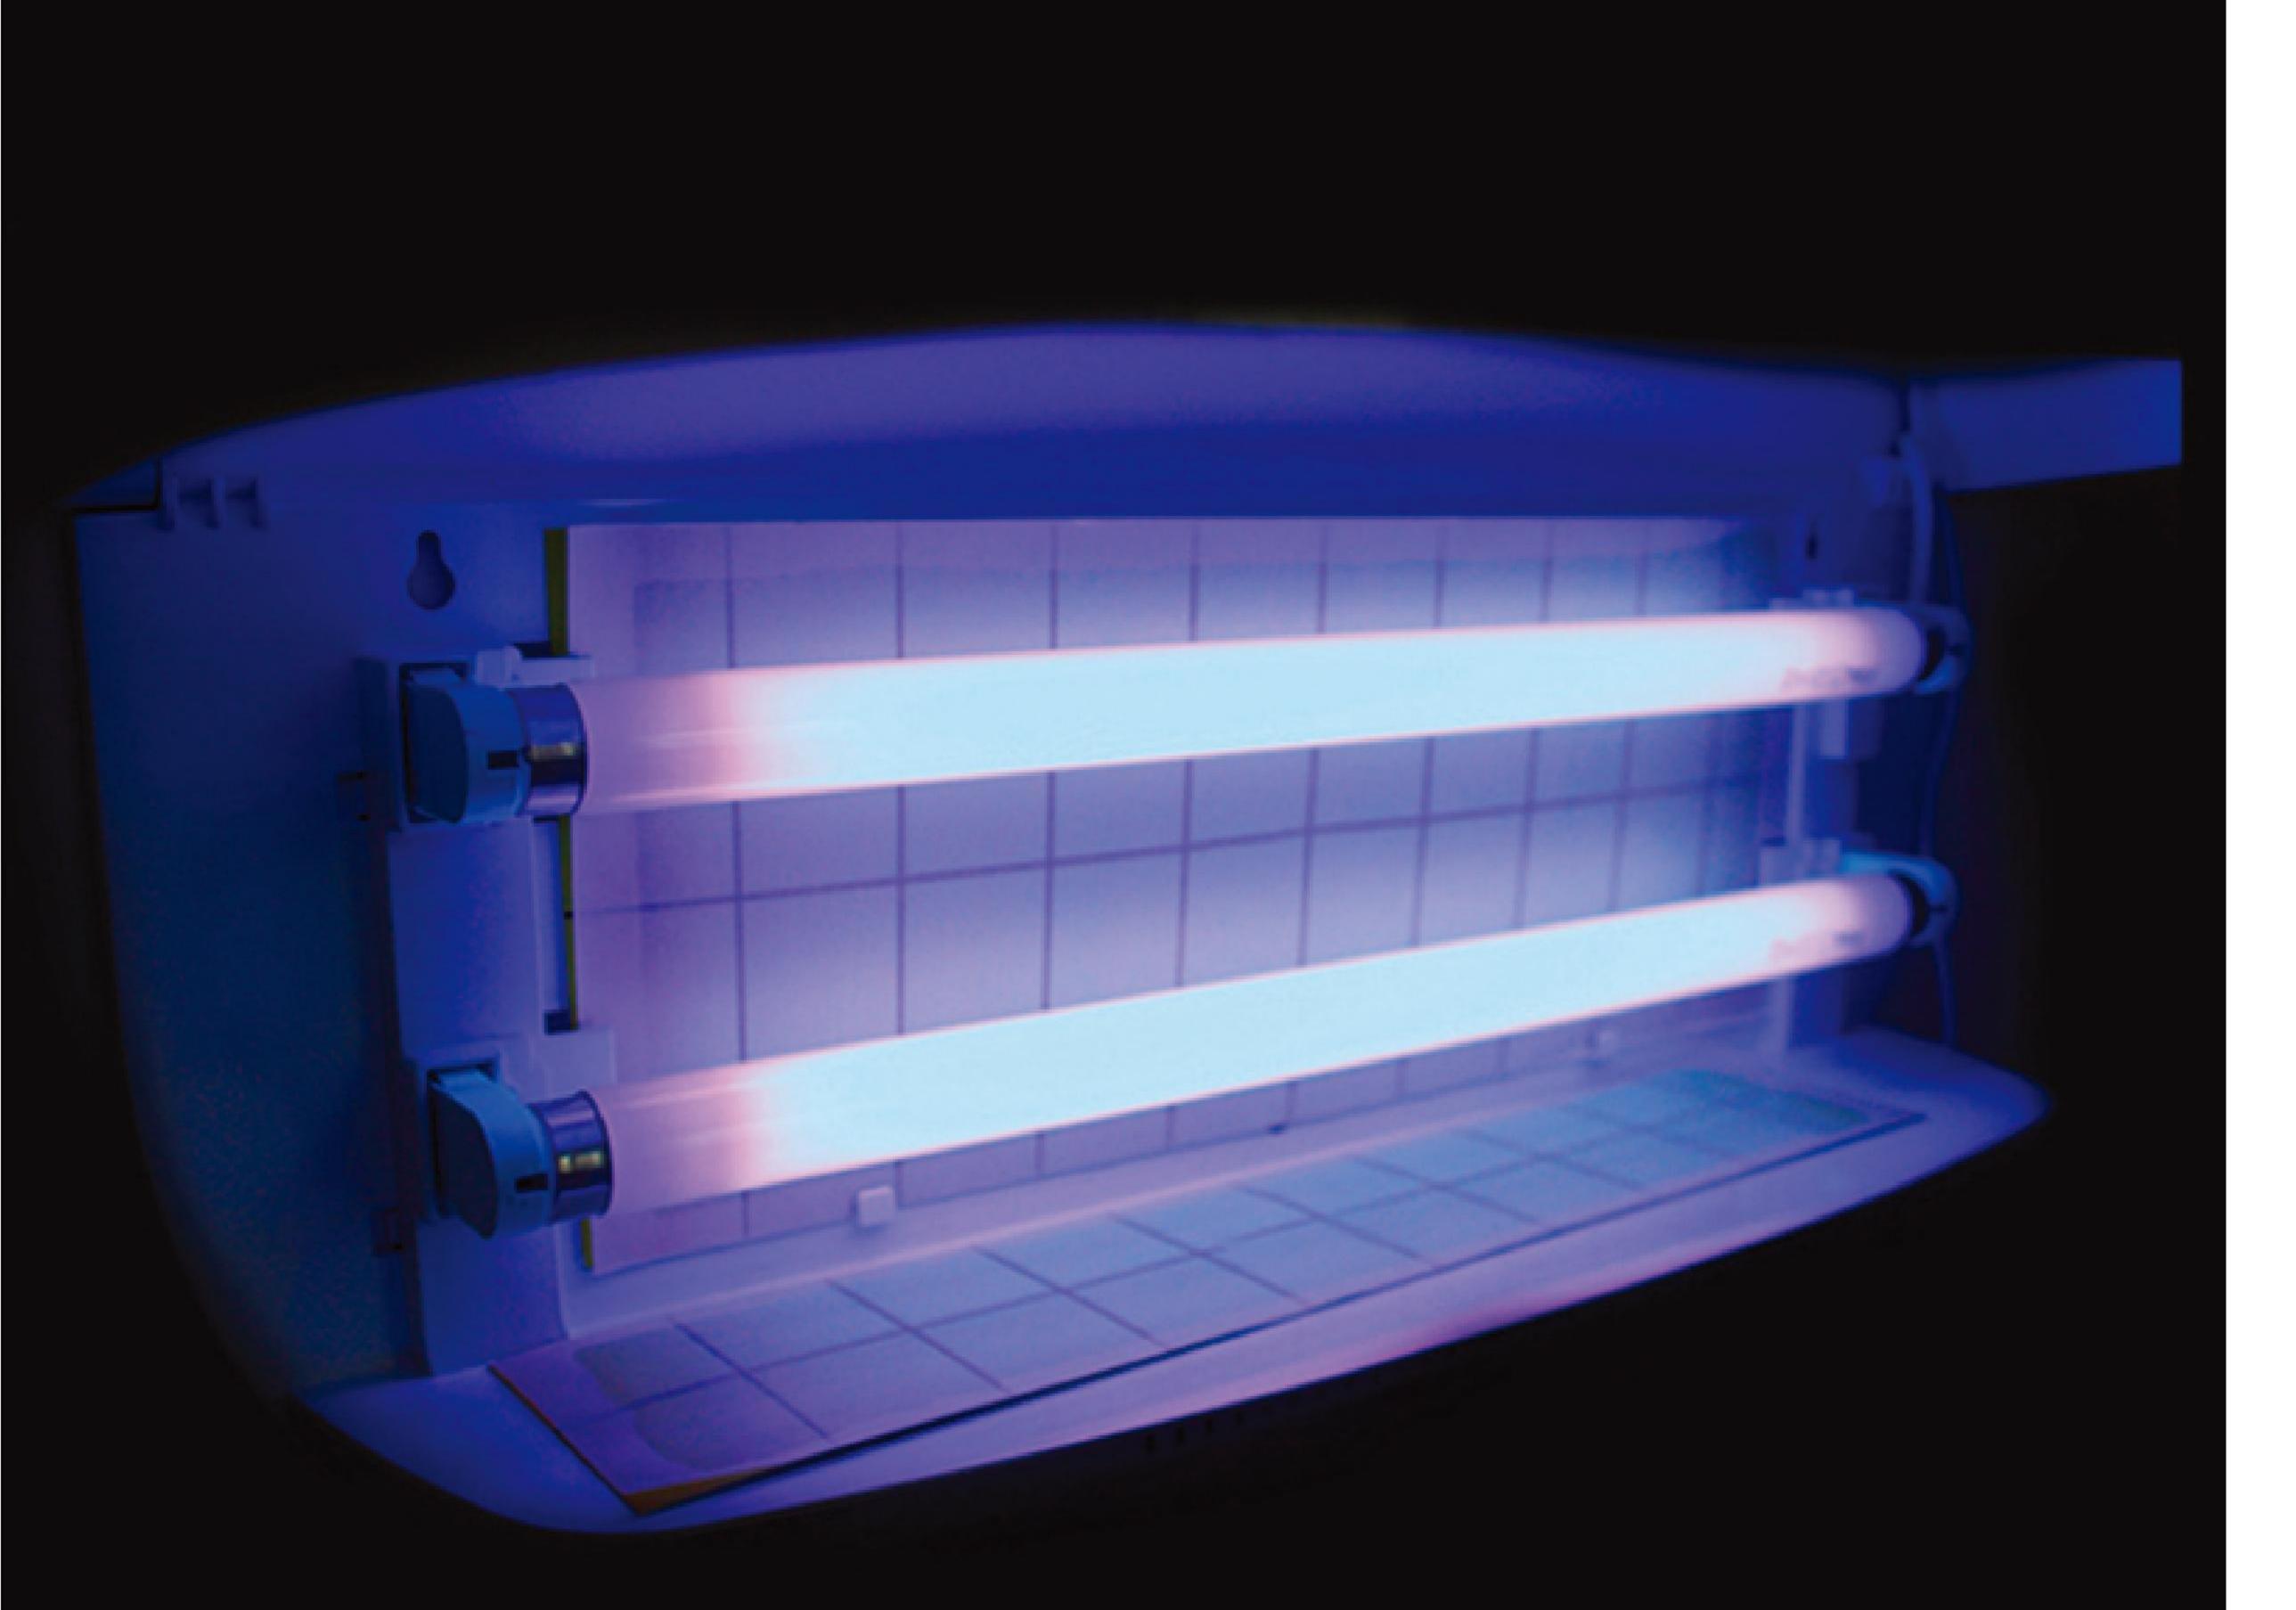

Low(Black Non-slip Sole)	2408-(37-45)Barrel height 8.5cm	EVA
Mid-calf (Black Non-slip Sole)	2410-(38-47) Barrel height 23-24.5cm	EVA
High (Black Non-slip Sole)	2409-(36-47) Barrel height 29-35cm	EVA

The water boots are made of PVC, soft and comfortable, resistant to oil, acid and alkali corrosion and good folding resistance. They are suitable for food factories, catering, biopharmaceutical, etc.

The water boots adopt EVA integrated molding technology, with a soft and elastic body, durable and wear-resistant, and comfortable foot feel. The sole is made of rubber material to increase friction and prevent slipping. Suitable for food factories, cateringBiopharmaceuticals, etc

PEST CONTROL DEVICES

#### Sak16 Sticky Fly Killing Lamp(420x150x210mm)

### Sak55 Sticky Fly Killing Lamp

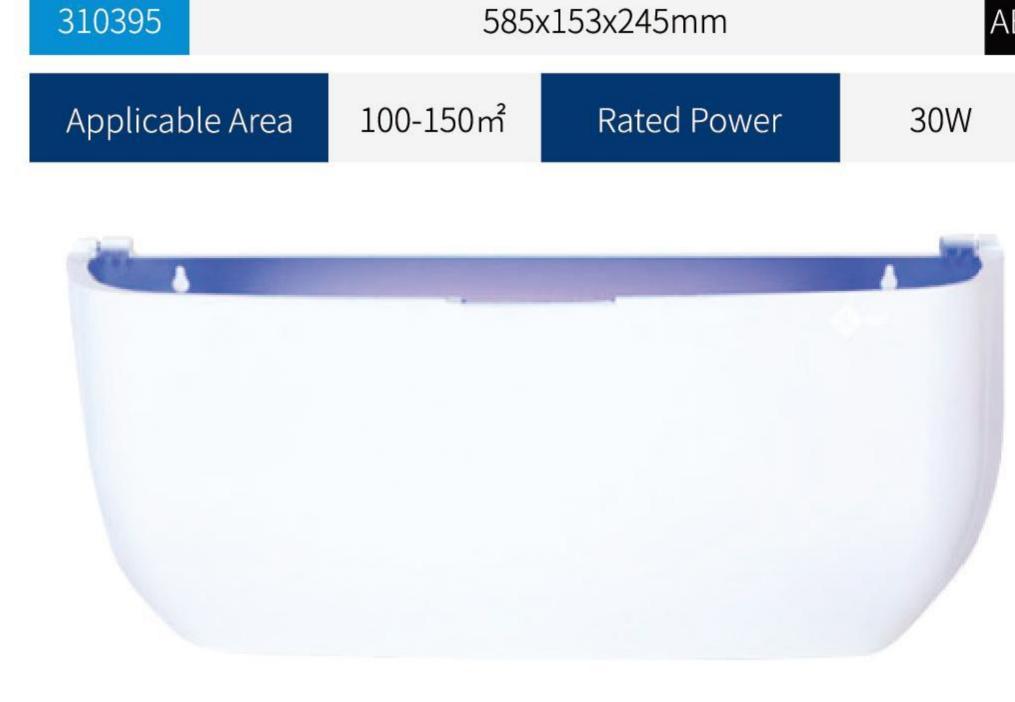

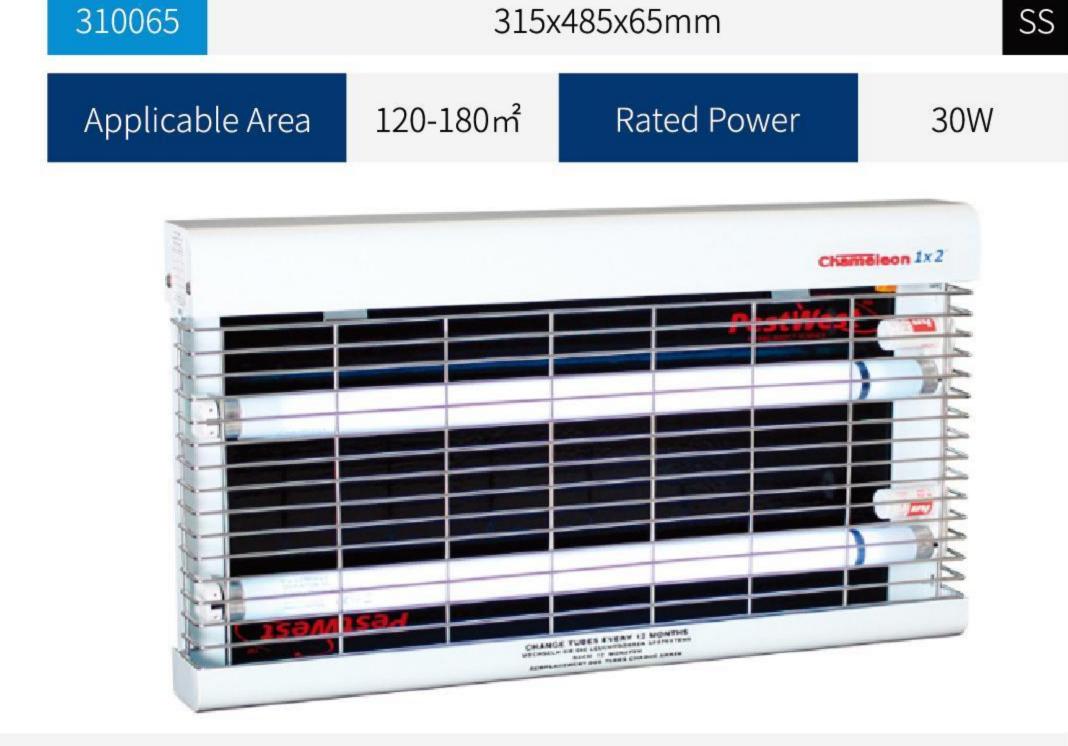

UVA 365nm specific light source is used to attract and capture mosquitoes, which will not cause secondary pollution. It is safe and efficient. It is suitable for hotels, restaurants, kitchens and other areas where mosquitoes need to be killed.

#### Sak60 Sticky Fly Killing Lamp

Pestwest Stick Catching Fly Killing Lamp (single side / shatter proof)

UVA 365nm specific light source is used to attract and capture mosquitoes, which will not cause secondary pollution. It is safe and efficient. It is suitable for hotels, restaurants, kitchens and other areas where mosquitoes need to be killed.

#### PEST CONTROL DEVICES

#### Pestwest Fluorescent Lamp (Shatter Proof Tube)

435хф25mm

#### T8 15W

#### Fluorescent Lamp

It is suitable for explosion-proof lamp tube in food workshop to prevent glass breakage and food pollution and harm.used to replace cha2x2020 / cha1x2020\_ Pestwest fluorescent lamp

It is used to replace flycatche918 / miekang 2118 / sak16 / sak18 and other anti fly lamps.

#### Fluorescent Lamp(435\*φ25mm)

Foshan Lighting Fly Killing Lamp Tube	330125	T8 15W
Philips fly killing lamp tube	330145	T8 15W

U-shaped Fluore Scent Lamp

330155	160xφ41mm	13W

Used to replace sak45 / sak55 / sak60 and other anti fly lamp tubes.

It is used to replace the sak-15 upgraded fly killing lamp and all kinds of lamp caps are E27 screw mouth fly killing lamp tubes.

#### Sak15 Special Fly Adhesive Paper

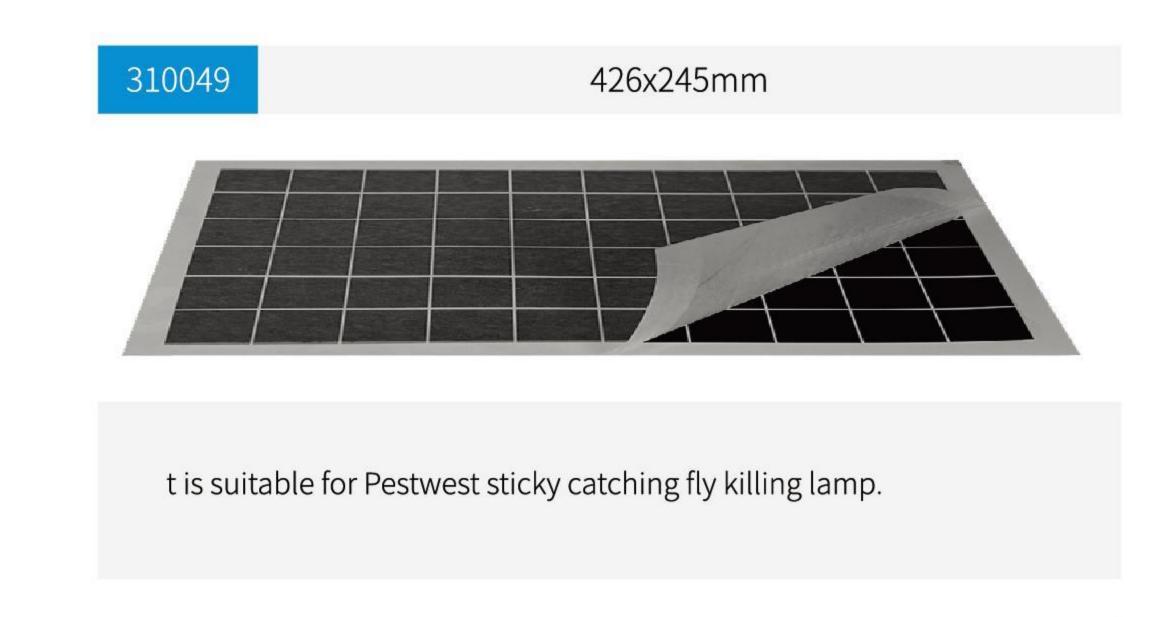

#### Sak55/60 Special Fly Adhesive Paper

#### Pestwest Special Fly Adhesive Paper

#### Sak50 Special Fly Adhesive Paper

#### Special Fly Paper For Flycatcher 988

#### PEST CONTROL DEVICES

#### Medium Bait Station 💼

Placed outdoors or indoors, with rat trap or wax block. Non interference structure. It can be fixed on the ground with steel

#### Extra Large Bait Station

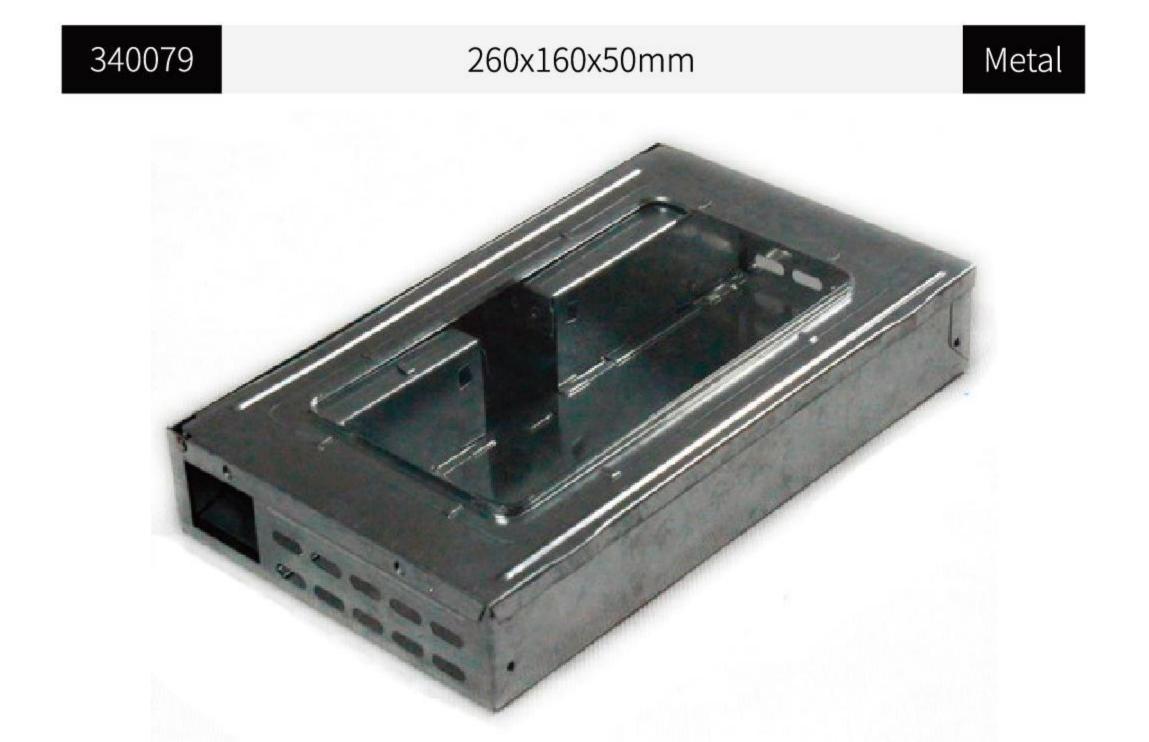

#### Ultrasonic Rat Repeller 💼

Imported horn, adjustable frequency; The supercharging technology is adopted, and the super power rat driving effect is good.

#### Metal Window Mousetrap Box 📫

Placed in workshop and warehouse. Rats can only get in, not out.

Physical rodent prevention, no chemicals and bait to reduce pollution.

#### Mousetrap

#### Lucky Cat Stick Mouse Board 💼

Strong viscosity, long viscosity, not easy to break

#### Strong Mouse Sticking Board

330x220mm

Super thick cardboard and a large amount of strong glue make it difficult to catch big mice.

#### Neutral Detergent 📫

Neutral cleaner (food grade) 610065 5KG/bucket 3 barrels/box

According to the national food hygiene standards, the food grade detergent, PH neutral, does not add flavors and pigments, has mild performance and strong cleaning ability. The concentrated type needs to be mixed with water

#### Food Grade Grease

AIMOL M2 Food Grade Grease

650235

400g/tube

NSF food certification.lubrication of meat, poultry, vegetables, fruits and beverages high-speed high-temperature processing machinery, withall-round protection performance.

#### High Foaming Detergent

High Foaming Detergent containing chlorine 650

30KG/barrel

Chlorine-containing alkalinity, good foaming, better effect with bubble cleaner and strong decontamination.

#### Sodium Hypochlorite

Food grade sodium hypochlorite (A-I type)

650186

25KG/barrel

This product is oxidable, non flammable and non explosive. It is mainly used for disinfection, deodorization, bleaching, medical / domestic / industrial sewage treatment, fine chemical industry.

480019	380x20mm	304SS
	Company of the state of the sta	

It is suitable for food, pharmaceutical workshop, catering kitchen and other areas.

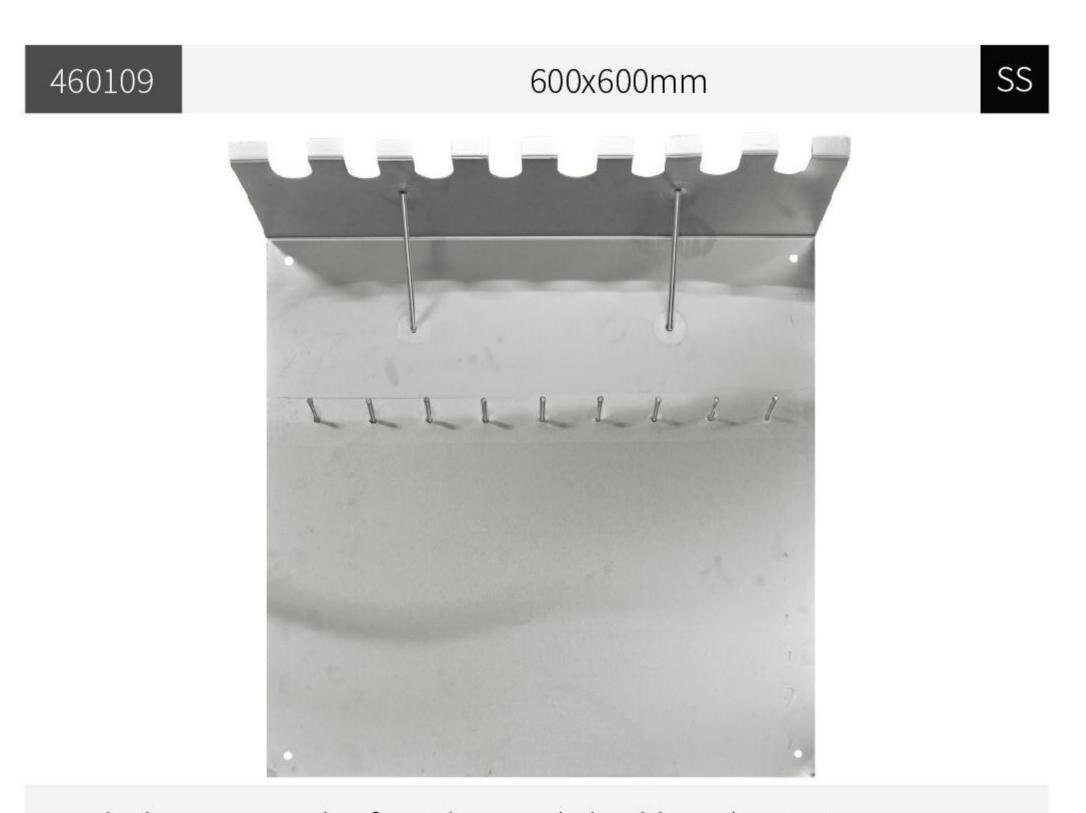

#### Tool Hanger 👈

The main material is ABS engineering plastic, aluminum alloy base, anti-skid and stable, and the storage tools are solid and durable.

#### Tool Hanger

The hanger is made of stainless steel, durable and corrosion-resistant.

Tools and instruments that can be used to hang long rods and short handles.

#### Metal Detectable Pen

#### Integral Metal Detectable Pen

Pen was designed without small parts and detectable by foreign-body detection equipment.

#### Stainless Steel Pylon

The hook is made of 304 stainless steel with a thickness of 2.0mm.

The hook is stable, durable, corrosion-resistant and free of solder joints.

#### Sticky Dust Collector Hanger

3 hooks	460208	600x380mm	SS
4 hooks	460207	600x400mm	SS

The hanging rack is made of stainless steel material, which is sturdy, durable, and corrosion-resistant. It can be used to separate and store sticky rollers with different usage times.

#### Metal Detectable Straps

detection equipment.

Name	Code	Size	Root/Package
SAK-MD100	530060	100x2.5mm	100
SAK-MD150	530061	150x3.6mm	100

SAK-MD300B	530066	370x7.6mm	100

High toughness, not easy to break, easy to tighten, organize the rope, and every part is metal detectable.

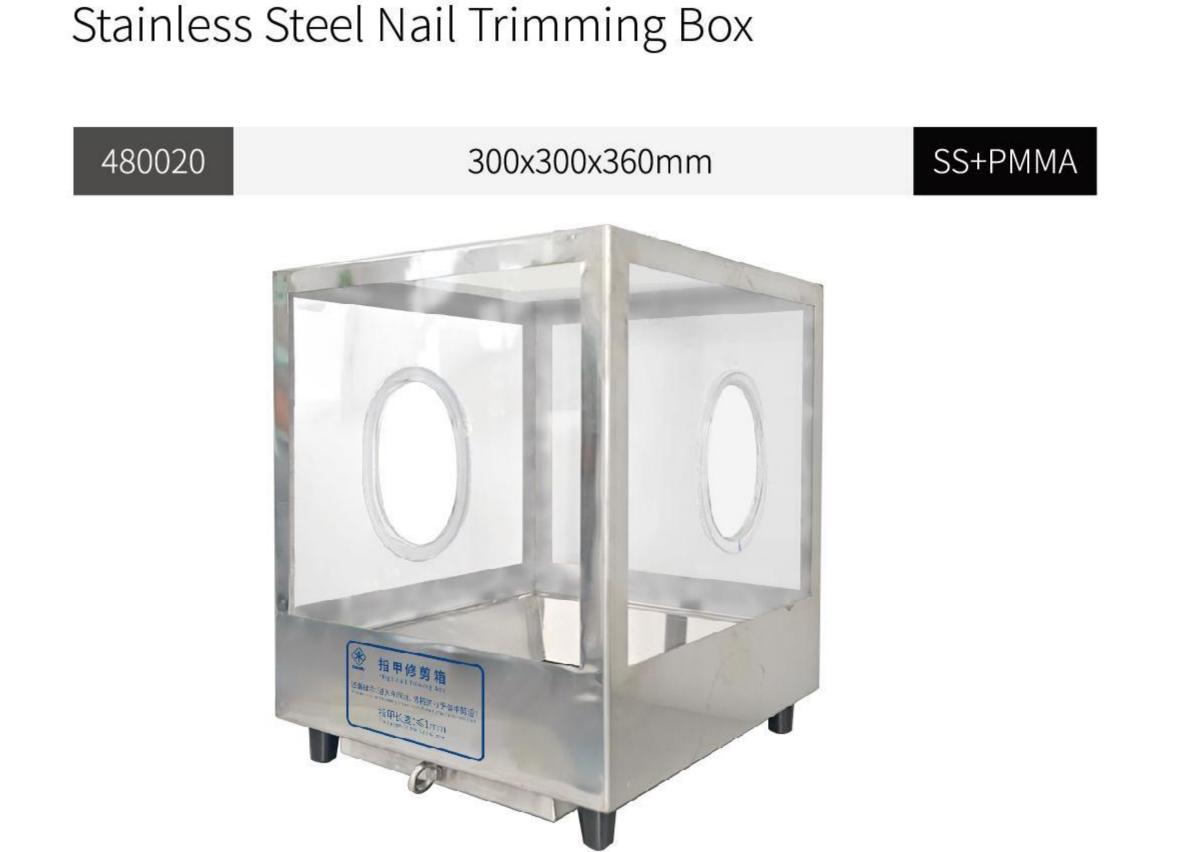

#### Stainless Steel Sticky Roller Dispenser

#### Stainless Steel Glove Dispenser

Stainless steel glove dispenser for use with gloves. Suitable for use in areas such as food, pharmaceutical workshops, catering kitchens, etc.

When in use, extend both hands into the holes on both sides, and the surrounding and upper parts are made of transparent acrylic material, making it easy to observe the length of nail trimming. After trimming, residual nails can be pulled out of the bottom drawer for easy cleaning.

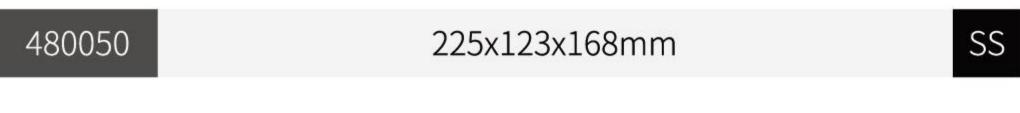

#### Handcart

Ergonomic handrail design, labor-saving and comfortable, long-term operation to protect the lumbar spine from injury.

#### Stainless Steel Mask Dispenser

catering kitchens, etc.

Suitable for use in areas such as food, pharmaceutical workshops,

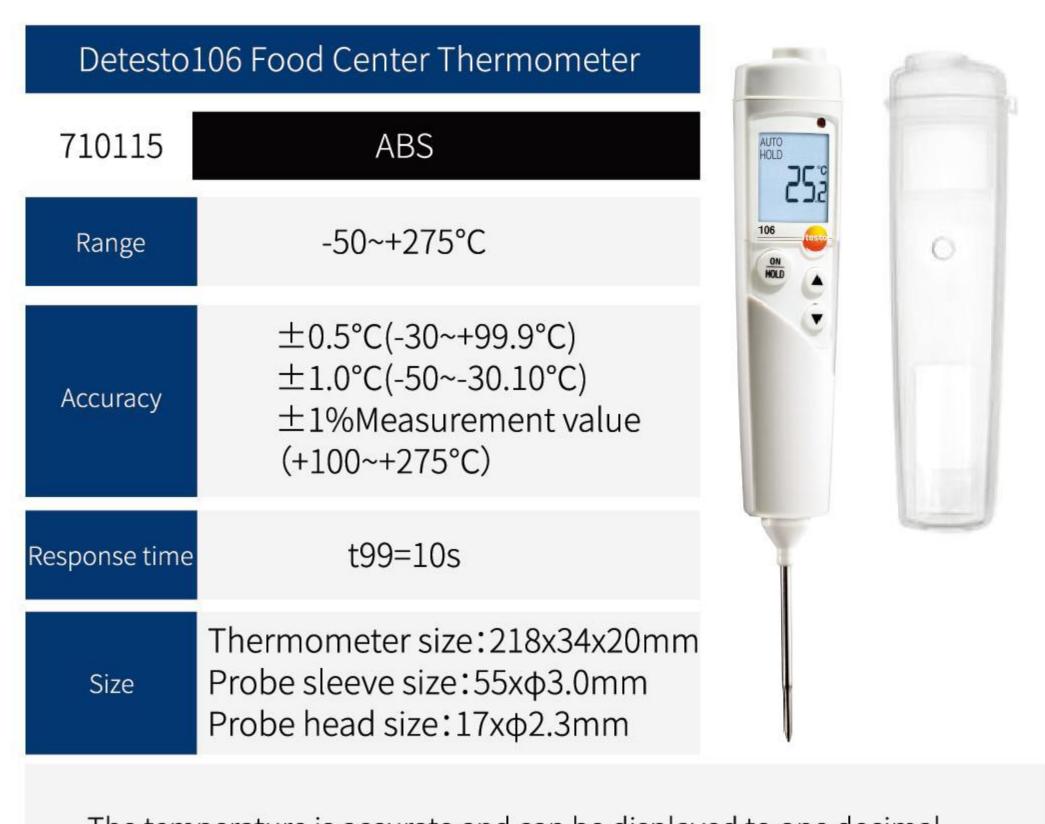

Stainless steel mask dispenser for use with masks. Suitable for use in areas such as food, pharmaceutical workshops, catering kitchens, etc.

#### Stainless Steel Non-woven Caps Dispenser

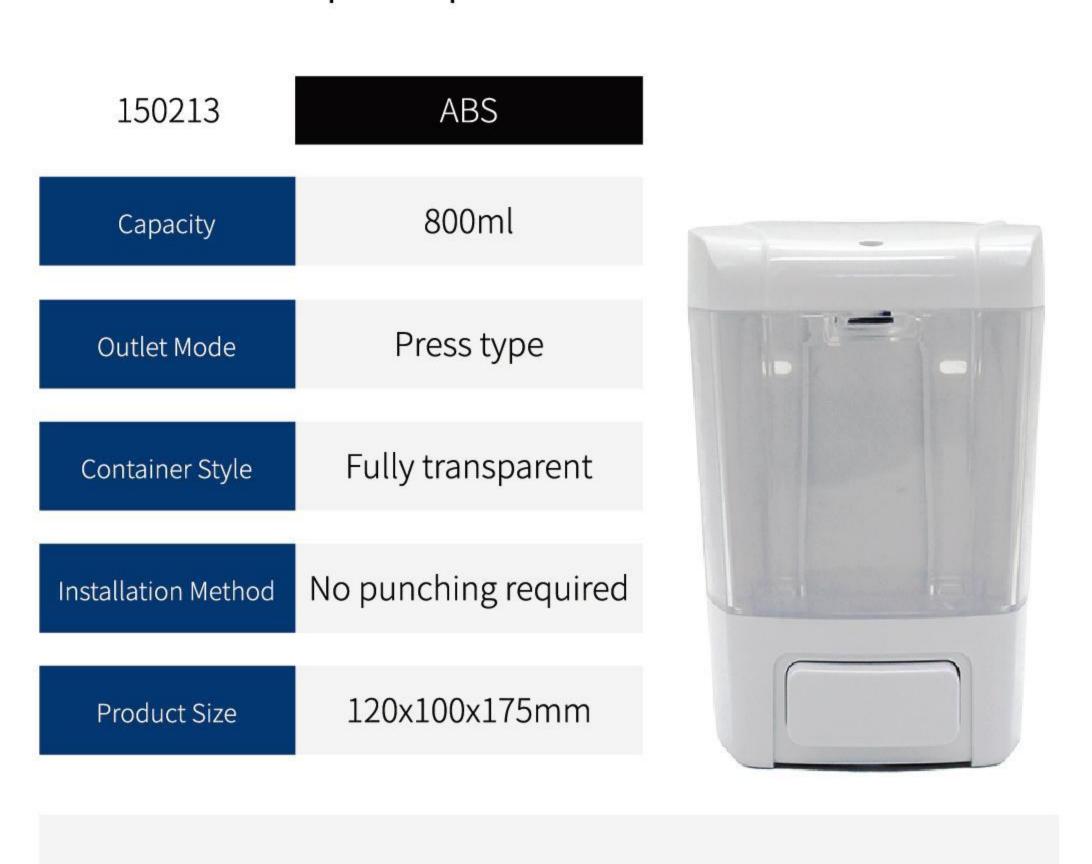

#### Stainless steel strip cap dispenser, used with strip caps. Suitable for use in areas such as food, pharmaceutical workshops, catering kitchens, etc.

#### Testo Food Center Thermometer

The temperature is accurate and can be displayed to one decimal place. The sound alarm function and alarm light are adopted.

#### Manual Soap Dispenser

It is used in food workshop, medicine workshop, catering kitchen, etc.

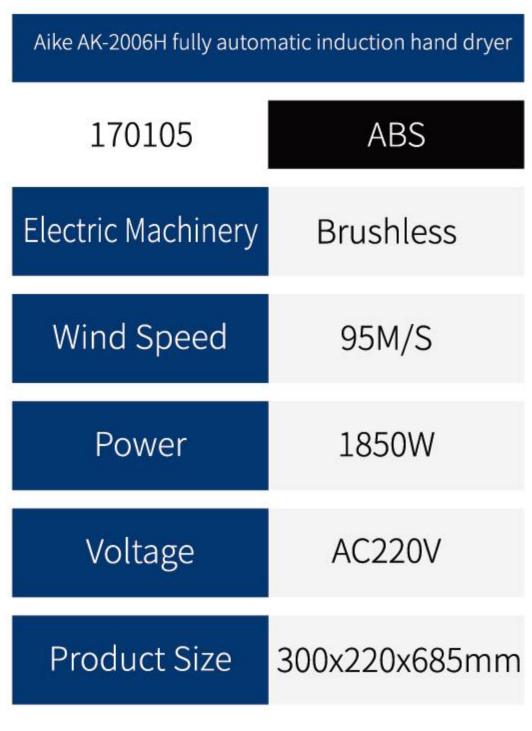

#### Induction Alcohol Sprayer 💼

Stainless steel material, high sensitivity, super capacity, four gear adjustment, suitable for hospitals, food factories, pharmaceutical factories, catering kitchen and other places with high requirements.

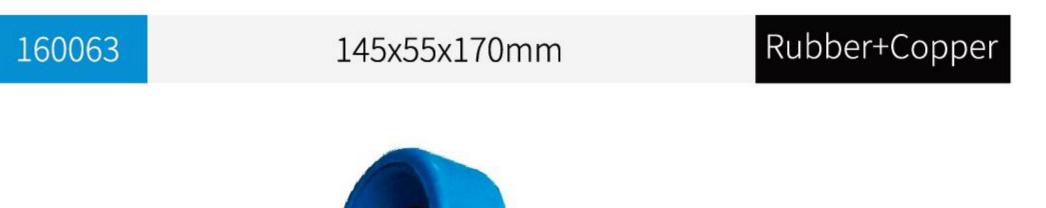

#### Induction Hand Dryer

The brushless DC motor can eliminate the dust dispersion caused by friction of traditional motor and avoid secondary pollution.

Strong power, support workshop long time high intensity use.

#### Heavy Duty All Copper Spray Gun

It is made of copper and durable. It is equipped with water pipe and water pipe rack for cleaning workshop environment and equipment.

#### Rubber Water Pipe

160085	15000x20mm	Rubber
160095	20000x20mm	Rubber

Two kinds of rubber water pipes are durable, with an outer diameter of 20mm and an inner diameter of 13mm. High pressure resistant, can be used with high-pressure water gun and water pipe rack.

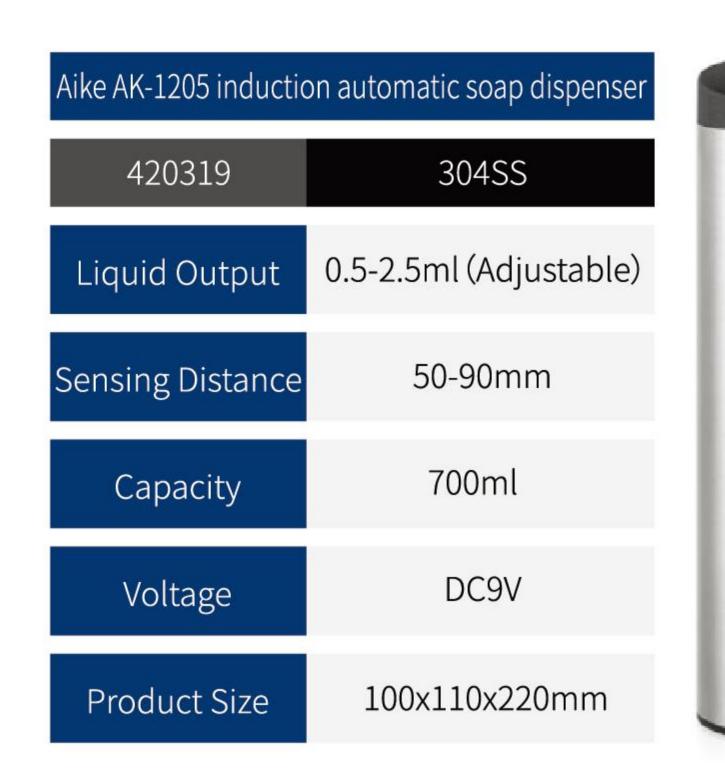

#### Induction Alcohol Sprayer

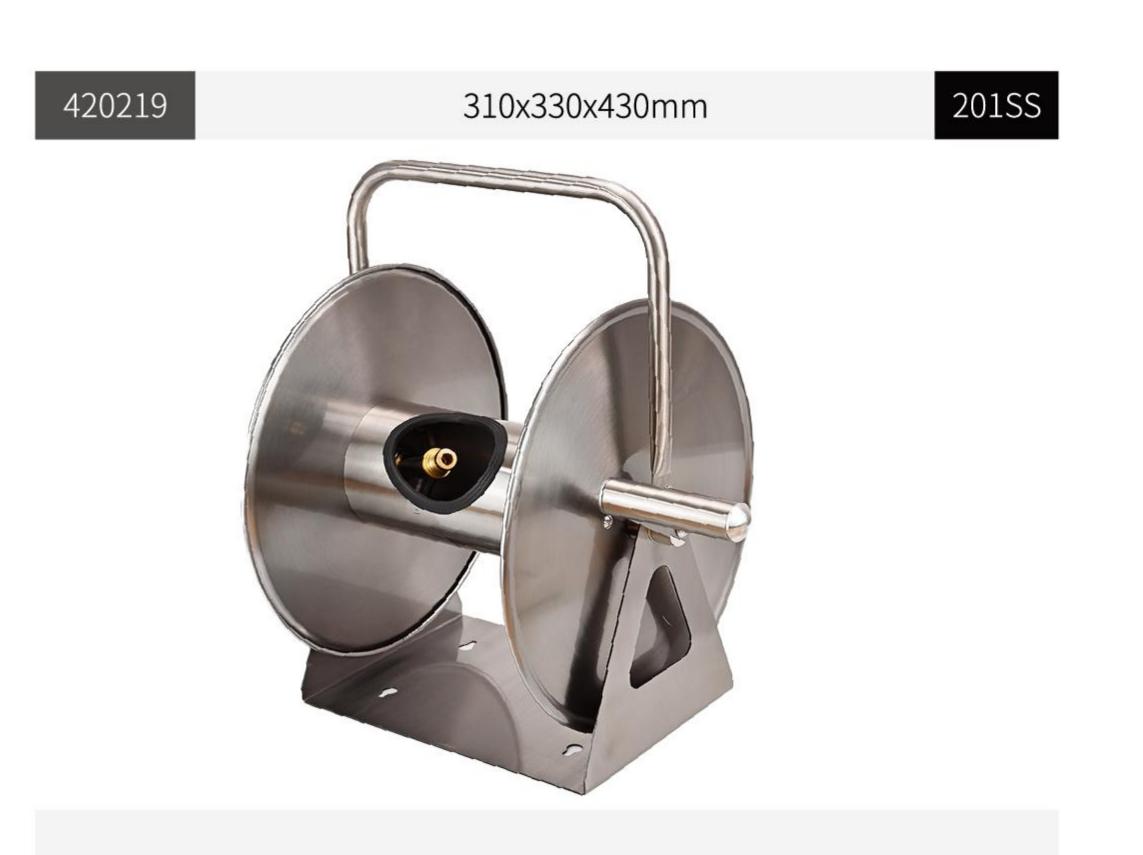

It is made of stainless steel with high sensitivity and 4-gear adjustment. It is suitable for hospitals, food factories, pharmaceutical purification workshops and places with special requirements.

#### Induction Soap Dispenser

Stainless steel material, high sensitivity, super capacity, five gear adjustment, suitable for hospitals, food factories, pharmaceutical factories, catering kitchen and other places with high requirements.

#### Manual Water Pipe Rack

Effectively solve the winding of water pipes, quickly store and no longer messy.maximum storage φ 13mm water pipe 20m.

#### Automatic Water Pipe Rack 📫

460189 500x350x530mm 304SS

Effectively solve the winding of water pipes, quickly store and no longer messy.maximum storage φ 18mm water pipe 30m.
